### SAMPLE SYNOPSIS

Dr. Stockmann, the Medical Officer of Health, having noticed an increase in the incidence of waterborne diseases among visitors coming to the medicinal spas in the city, institutes a scientific investigation and discovers the water is contaminated by effluent from the tannery nearby. He recommends to the Municipal authorities he serves closure of the Baths and the relaying of the entire piping system. This sets him on a collision course with the Municipal authorities who wish to downplay the issue on account that publication of the issue would scare away the tourists and kill the economy of the city that was dependent on the Baths. Besides, they argued, closure and the works would take too long and would be too expensive for the shareholders.

This sets the stage for the confrontation between Dr. Stockmann who believes the safety of the populace and of the tourists is paramount and the Mayor who leads the political and business fraternity. The ensuing battles form the conflict in the play *An Enemy of the People*. The Mayor uses intimidation, sacks Dr. Stockmann, distorts the information and blackmails the public into supporting him by claiming the taxpayers would have to foot the bill should Dr. Stockmann succeed. This makes the public to denounce Dr. Stockmann as the enemy of the people. (204 words)
