

**GRADE THREE** 

#### GRADE THREE HYGIENE AND NUTRITION TERM TWO YEAR 2018

| WEE<br>K | LESS<br>ON | STRAND                  | S-STRAND  | SPECIFIC LEARNING<br>OUTCOMES   | KEY INQUIRY<br>QUESTIONS                         | LEARNI9NG<br>EXPERIENCES   | LEARNING<br>RESOURCE<br>S | ASSESSMENT                           | REFLECTION |
|----------|------------|-------------------------|---|---|--|--|---------------------------|--------------------------------------|------------|
| 2        | 1          | Persona<br>l<br>hygiene | Personal<br>hygiene<br>during<br>bed<br>wetting | By the end of the sub-<br>strand, the learner should<br>be able to:<br>a) mention causes of bed<br>wetting, | What are the<br>reasons for bed<br>wetting       | Learners will be guided<br>to mention causes of bed<br>wetting (drinking too<br>much liquids before<br>sleeping, dreaming, not<br>able to control the<br>bladder, feeling unwell).                           | Realia<br>charts          | 1.Observation<br>2.Oral<br>questions |            |
|          | 2          |                         | Personal<br>hygiene<br>during<br>bed<br>wetting | By the end of the sub-<br>strand, the learner should<br>be able to - mention causes<br>of bed wetting       | What are the<br>reasons for bed<br>wetting       | The learners will listen to<br>stories and share<br>experiences on bed<br>wetting  | Realia<br>Charts          | .Observation<br>2.Oral<br>questions  |            |
| 3        | 1          |                         | Personal<br>hygiene<br>during<br>bed<br>wetting | By the end of the sub-<br>strand, the learner should<br>be able to ) state the<br>effects of bed wetting    | What are the<br>reasons for bed<br>wetting       | learners will be guided to<br>tell the effects of bed<br>wetting (bad smell, bed<br>sores, low self-esteem,<br>beddings infested with<br>maggots) through<br>pictures, video clips and<br>experience sharing | Realia<br>Charts          | .Observation<br>2.Oral<br>questions  |            |
|          | 2          | Foods                   | Eating<br>Habits<br>and                         | By the end of the sub-<br>strand, the learner should<br>be able to:   | Which foods are<br>available in our<br>community | learners are guided to<br>identify foods available in<br>their community through   | Realia<br>charts          | Observation                          |            |

|  | Values | a) name foods available in our community, | brainstorming, pictures,<br>buzz groups, video clips |  |  |
|--|--------|---|--|--|--|
|  |        |   |  |  |  |

| 4 | 1 | Eating<br>Habits<br>and<br>Values | By the end of the sub-<br>strand, the learner should<br>be able to:<br>, b) give reasons for not<br>eating certain foods<br>available in the<br>community | Which foods are<br>available in our<br>community | Learners are guided to<br>mention reasons why<br>some members of the<br>community do not eat<br>certain foods (health,<br>religion, personal<br>preferences, culture,<br>availability)through<br>experience sharing,<br>discussion, buzz groups | Realia<br>Charts | .Observation<br>2.Oral<br>questions |  |
|---|---|-----------------------------------|---|--|---|------------------|-------------------------------------|--|
|   | 2 | Food<br>Etiquett                  | <ul> <li>By the end of the substrand, the learner should be able to:</li> <li>a) identify good table manners to observe when taking meals,</li> </ul>     | Which are the good table manners                 | learners are guided to<br>identify good table<br>manners (eating with<br>mouth closed, not talking<br>while eating, not placing<br>elbow on the table,<br>washing hands before<br>eating, not picking nose<br>etc)                              | Realia<br>Charts | .Observation<br>2.Oral<br>questions |  |
| 5 | 1 | Food<br>Etiquette                 | be able to:<br>practice good table<br>manners when taking<br>meals,   | Which are the good table manners                 | Learners can take pictures<br>or record on table<br>manners using computing<br>devices and share in class   | Realia<br>Charts | .Observation<br>2.Oral<br>questions |  |
|   | 2 | Food<br>groups                    | By the end of the sub-  | Why do we eat                                    | learners are guided to  | Realia<br>charts | .Observation<br>2.Oral              |  |

|   |   |                | strand, the learner should<br>be able to:<br>a) mention reasons for<br>eating food, | food?                           | mention reasons for<br>eating food (energy,<br>growth, prevent diseases) |                  | questions              |
|---|---|----------------|---|---------------------------------|--|------------------|------------------------|
| 6 | 1 | Food<br>groups | By the end of the sub-<br>strand, the learner should                                | . Which foods give<br>us energy | learners are guided to<br>classify foods into energy                     | Realia<br>Charts | .Observation<br>2.Oral |

|   |   |                     | be able to:<br>group foods into energy<br>giving, body building and<br>protective foods  |  | giving, body building and<br>protective foods using<br>pictures, realia, charts and<br>video clips                             |                  | questions   |
|---|---|---------------------|--|--|--|------------------|---|
|   | 2 | Food<br>groups      | By the end of the sub-<br>strand, the learner should<br>be able to: appreciate the<br>importance of eating food<br>from all the three food<br>groups in a meal | Which foods<br>protects our bodies                                   | Learners are guided to<br>discuss the importance of<br>eating foods from all the<br>three food groups in a<br>meal             | Realia<br>Charts | .Observation<br>2.Oral<br>questions                           |
| 7 | 1 | Food and<br>fitness | By the end of the sub-<br>strand, the learner should<br>be able to:<br>a) give reasons why some<br>people eat too much or too<br>little food                   | Why do some<br>people eat too<br>much or too little<br>food?         | learners are guided to<br>give reasons why some<br>people eat too much or<br>too little food through<br>discussions, stories   | Realia<br>Charts | .Observation<br>2.Oral<br>questions<br>3.written<br>questions |
|   | 2 | Food and<br>fitness | By the end of the sub-<br>strand, the learner should<br>be able to:<br>b) mention the risks of<br>eating too much or too<br>little food                        | What are the<br>problems of eating<br>too much or too<br>little food | In groups, learners are<br>guided to mention the<br>risks of eating too much<br>or too little food using<br>pictures or videos | Realia<br>Charts | Observation<br>2.Oral<br>questions                            |
| 8 | 1 | Food and fitness    | By the end of the sub-   | What are the problems of eating                                      | Learners are guided to   | Realia<br>charts | Observation<br>2.Oral   |

|  |  | strand, the learner should<br>be able to:<br>give reasons why<br>exercising is important in<br>physical fitness | too much or too<br>little food | identify the importance of<br>engaging in physical<br>exercises through<br>experience sharing,<br>videos, doing exercises |  | questions |  |
|--|--|---|--------------------------------|---|--|-----------|--|
|--|--|---|--------------------------------|---|--|-----------|--|

|    | 2 | Safety in<br>food<br>storage | By the end of the sub-<br>strand, the learner should<br>be able to:<br>a) identify storage<br>facilities for food at home,                        | What foods should<br>be cooked before<br>eating | Learners are guided to<br>identify storage facilities<br>for food (cupboards,<br>shelves, racks,<br>refrigerator, food<br>containers, sacks) through<br>pictures, video clips,<br>charts.   | Realia<br>charts | Observation<br>2.Oral<br>questions |  |
|----|---|------------------------------|---|---|---|------------------|------------------------------------|--|
| 9  | 1 | Safety in<br>food<br>storage | By the end of the sub-<br>strand, the learner should<br>be able to ) state where to<br>store cooked and raw<br>foods at home                      | What foods could be eaten raw?                  | Learners are guided to<br>identify areas where<br>cooked and raw foods<br>could be stored using<br>pictures, videos   | Realia<br>charts | Observation<br>2.Oral<br>questions |  |
|    | 2 | Safety in<br>food<br>storage | By the end of the sub-<br>strand, the learner should<br>be able to mention factors<br>to observe when storing<br>cooked and raw foods at<br>home, | Where do we store<br>cooked and raw<br>foods?   | Learners are guided to<br>mention factors to<br>observe when storing<br>food (clean, and cool<br>place; cooked food<br>covered; not mixing<br>cooked and uncooked<br>food; free from pests) | Realia<br>charts | Observation<br>2.Oral<br>questions |  |
| 10 | 1 | Safety in<br>food            | By the end of the sub-<br>strand, the learner should  | How do we store cooked and raw                  | Learners are guided to give reasons for proper  | Realia<br>charts | Observation<br>2.Oral              |  |

|   |                   | storage             | be able to give reasons for<br>proper storage of food at<br>home | foods?                        | storage of food (prevent<br>going bad; to preserve so<br>that it can be used later;<br>to avoid contamination<br>from dirt; to prevent<br>from been infested by<br>pests; to prevent<br>wastage |                  | questions             |  |
|---|-------------------|---------------------|--|-------------------------------|---|------------------|-----------------------|--|
| 2 | Safety<br>Educati | Common<br>accidents | By the end of the sub-<br>strand, the learner should             | What are the common accidents | Learners are guided to identify causes of   | Realia<br>charts | Observation<br>2.Oral |  |

|    |   | on | and Basic<br>First aid                        | be able to<br>identify common accidents<br>in the school,   | in the school?   | common accidents in the<br>classroom (rough<br>surfaces, accidents  |                  | questions                          |  |
|----|---|----|---|---|--|---|------------------|------------------------------------|--|
| 11 | 1 |    | Common<br>accidents<br>and Basic<br>First aid | By the end of the sub-<br>strand, the learner should<br>be able to name the causes<br>of common accidents in<br>school            | What are the<br>causes of common<br>accidents in the<br>school           | In groups, learners listen<br>to stories and share<br>experiences of common<br>accidents they have<br>encountered or witnessed<br>in the school | Realia<br>charts | Observation<br>2.Oral<br>questions |  |
|    | 2 |    | Common<br>accidents<br>and Basic<br>First aid | By the end of the sub-<br>strand, the learner should<br>be able to ) names way of<br>preventing common<br>accidents in the school | What are the<br>causes of common<br>accidents in the<br>school           | In groups, learners listen<br>to stories and share<br>experiences of common<br>accidents they have<br>encountered or witnessed<br>in the school | Realia<br>charts | Observation<br>2.Oral<br>questions |  |
| 12 | 1 |    | Common<br>accidents<br>and Basic<br>First aid | By the end of the sub-<br>strand, the learner should<br>be able to names way of<br>preventing common<br>accidents in the school   | What is the simple<br>first aid for<br>common accidents<br>in the school | Learners are guided to<br>tell how they can prevent<br>common accidents in the<br>school using<br>demonstration, pictures<br>and illustrations  | Realia<br>charts | Observation<br>2.Oral<br>questions |  |
|    | 2 |    | Common<br>accidents<br>and Basic              | By the end of the sub-<br>strand, the learner should  | What is the simple first aid for   | Learners are guided to<br>tell the First Aid for<br>fainting and nose   | Realia<br>charts | Observation<br>2.Oral<br>questions |  |

|    |     | First aid                        | be able to<br>tell the First Aid for<br>fainting and nose bleeding | common accidents<br>in the school                       | bleeding  |                  |                                    |  |
|----|-----|----------------------------------|--|---|---|------------------|------------------------------------|--|
| 13 | 1-2 | Common<br>accidents<br>and Basic | By the end of the sub-<br>strand, the learner should<br>be able to | What is the simple<br>first aid for<br>common accidents | Learners are guided to<br>tell the First Aid for<br>fainting and nose | Realia<br>charts | Observation<br>2.Oral<br>questions |  |

|    |     | First aid | tell the First Aid for<br>fainting and nose bleeding | in the school | bleeding |     |  |
