## FOREWORD BY THE MINISTER

Our national curriculum is the culmination of our efforts over a period of seventeen years to transform the curriculum bequeathed to us by apartheid. From the start of democracy we have built our curriculum on the values that inspired our Constitution (Act 108 of 1996). The Preamble to the Constitution states that the aims of the Constitution are to:

- heal the divisions of the past and establish a society based on democratic values, social justice and fundamental human rights;
  - improve the quality of life of all citizens and free the potential of each person;
  - lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law; and
- build a united and democratic South Africa able to take its rightful place as a sovereign state in the family of nations.

Education and the curriculum have an important role to play in realising these aims.

In 1997 we introduced outcomes-based education to overcome the curricular divisions of the past, but the experience of implementation prompted a review in 2000. This led to the first curriculum revision: the *Revised National Curriculum Statement Grades R-9* and the *National Curriculum Statement Grades 10-12* (2002).

Ongoing implementation challenges resulted in another review in 2009 and we revised the *Revised National Curriculum Statement* (2002) to produce this document.

From 2012 the two 2002 curricula, for *Grades R-9* and *Grades 10-12* respectively, are combined in a single document and will simply be known as the *National Curriculum Statement Grades R-12*. The *National Curriculum Statement for Grades R-12* builds on the previous curriculum but also updates it and aims to provide clearer specification of what is to be taught and learnt on a term-by-term basis.

The *National Curriculum Statement Grades R-12* accordingly replaces the Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines with the

- (a) Curriculum and Assessment Policy Statements (CAPS) for all approved subjects listed in this document;
- (b) *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*; and
- (c) *National Protocol for Assessment Grades R-12*.

### INTRODUCTION TO THE CURRICULUM AND ASSESSMENT POLICY STATEMENTS FOR DANCE STUDIES GRADES 10-12

#### 1.1 Background

The *National Curriculum Statement Grades R-12 (NCS)* stipulates policy on curriculum and assessment in the schooling sector.

To improve implementation, the National Curriculum Statement was amended, with the amendments coming into effect in January 2012. A single comprehensive Curriculum and Assessment Policy document was developed for each subject to replace Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines in Grades R-12.

#### 1.2 Overview

(a) The *National Curriculum Statement Grades R-12 (January 2012)* represents a policy statement for learning and teaching in South African schools and comprises the following:

- (i) *Curriculum and Assessment Policy Statements for each approved school subject;*
- (ii) *The policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
- (iii) *The policy document, National Protocol for Assessment Grades R-12 (January 2012).*

(b) The *National Curriculum Statement Grades R-12 (January 2012)* replaces the two current national curricula statements, namely the

- (i) *Revised National Curriculum Statement Grades R-9, Government Gazette No. 23406 of 31 May 2002, and*
- (ii) *National Curriculum Statement Grades 10-12 Government Gazettes, No. 25545 of 6 October 2003 and No. 27594 of 17 May 2005.*

(c) The national curriculum statements contemplated in subparagraphs b(i) and (ii) comprise the following policy documents which will be incrementally repealed by the *National Curriculum Statement Grades R-12 (January 2012)* during the period 2012-2014:

- (i) *The Learning Area/Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines for Grades R-9 and Grades 10-12;*
- (ii) *The policy document, National Policy on assessment and qualifications for schools in the General Education and Training Band, promulgated in Government Notice No. 124 in Government Gazette No. 29626 of 12 February 2007;*
- (iii) *The policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), promulgated in Government Gazette No.27819 of 20 July 2005;*

- (iv) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding learners with special needs, published in Government Gazette, No.29466 of 11 December 2006, is incorporated in the policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
- (v) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding the National Protocol for Assessment (Grades R-12), promulgated in Government Notice No.1267 in Government Gazette No. 29467 of 11 December 2006.*
- (d) The policy document, *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*, and the sections on the Curriculum and Assessment Policy as contemplated in Chapters 2, 3 and 4 of this document constitute the norms and standards of the *National Curriculum Statement Grades R-12*. It will therefore, in terms of *section 6A of the South African Schools Act, 1996 (Act No. 84 of 1996)*, form the basis for the Minister of Basic Education to determine minimum outcomes and standards, as well as the processes and procedures for the assessment of learner achievement to be applicable to public and independent schools.

### 1.3 General aims of the South African Curriculum

- (a) The *National Curriculum Statement Grades R-12* gives expression to the knowledge, skills and values worth learning in South African schools. This curriculum aims to ensure that children acquire and apply knowledge and skills in ways that are meaningful to their own lives. In this regard, the curriculum promotes knowledge in local contexts, while being sensitive to global imperatives.
- (b) The National Curriculum Statement Grades R-12 serves the purposes of:
- equipping learners, irrespective of their socio-economic background, race, gender, physical ability or intellectual ability, with the knowledge, skills and values necessary for self-fulfilment, and meaningful participation in society as citizens of a free country;
  - providing access to higher education;
  - facilitating the transition of learners from education institutions to the workplace; and
  - providing employers with a sufficient profile of a learner's competences.
- (c) The National Curriculum Statement Grades R-12 is based on the following principles:
- Social transformation: ensuring that the educational imbalances of the past are redressed, and that equal educational opportunities are provided for all sections of the population;
  - Active and critical learning: encouraging an active and critical approach to learning, rather than rote and uncritical learning of given truths;
  - High knowledge and high skills: the minimum standards of knowledge and skills to be achieved at each grade are specified and set high, achievable standards in all subjects;
  - Progression: content and context of each grade shows progression from simple to complex;

- Human rights, inclusivity, environmental and social justice: infusing the principles and practices of social and environmental justice and human rights as defined in the Constitution of the Republic of South Africa. The National Curriculum Statement Grades R-12 is sensitive to issues of diversity such as poverty, inequality, race, gender, language, age, disability and other factors;
  - Valuing indigenous knowledge systems: acknowledging the rich history and heritage of this country as important contributors to nurturing the values contained in the Constitution; and
  - Credibility, quality and efficiency: providing an education that is comparable in quality, breadth and depth to those of other countries.
- (d) The National Curriculum Statement Grades R-12 aims to produce learners that are able to:
- identify and solve problems and make decisions using critical and creative thinking;
  - work effectively as individuals and with others as members of a team;
  - organise and manage themselves and their activities responsibly and effectively;
  - collect, analyse, organise and critically evaluate information;
  - communicate effectively using visual, symbolic and/or language skills in various modes;
  - use science and technology effectively and critically showing responsibility towards the environment and the health of others; and
  - demonstrate an understanding of the world as a set of related systems by recognising that problem solving contexts do not exist in isolation.
- (e) Inclusivity should become a central part of the organisation, planning and teaching at each school. This can only happen if all teachers have a sound understanding of how to recognise and address barriers to learning, and how to plan for diversity.

The key to managing inclusivity is ensuring that barriers are identified and addressed by all the relevant support structures within the school community, including teachers, District-Based Support Teams, Institutional-Level Support Teams, parents and Special Schools as Resource Centres. To address barriers in the classroom, teachers should use various curriculum differentiation strategies such as those included in the Department of Basic Education's *Guidelines for Inclusive Teaching and Learning* (2010).

## 1.4 Time Allocation

### 1.4.1 Foundation Phase

(a) The instructional time in the Foundation Phase is as follows:

SUBJECT	GRADE R (HOURS)	GRADES 1-2 (HOURS)	GRADE 3 (HOURS)
Home Language	10	8/7	8/7
First Additional Language		2/3	3/4
Mathematics	7	7	7
Life Skills	<b>6</b>	<b>6</b>	<b>7</b>
• Beginning Knowledge	(1)	(1)	(2)
• Creative Arts	(2)	(2)	(2)
• Physical Education	(2)	(2)	(2)
• Personal and Social Well-being	(1)	(1)	(1)
<b>TOTAL</b>	<b>23</b>	<b>23</b>	<b>25</b>

(b) Instructional time for Grades R, 1 and 2 is 23 hours and for Grade 3 is 25 hours.

(c) Ten hours are allocated for languages in Grades R-2 and 11 hours in Grade 3. A maximum of 8 hours and a minimum of 7 hours are allocated for Home Language and a minimum of 2 hours and a maximum of 3 hours for Additional Language in Grades 1-2. In Grade 3 a maximum of 8 hours and a minimum of 7 hours are allocated for Home Language and a minimum of 3 hours and a maximum of 4 hours for First Additional Language.

(d) In Life Skills Beginning Knowledge is allocated 1 hour in Grades R-2 and 2 hours as indicated by the hours in brackets for Grade 3.

### 1.4.2 Intermediate Phase

(a) The instructional time in the Intermediate Phase is as follows:

SUBJECT	HOURS
Home Language	6
First Additional Language	5
Mathematics	6
Natural Sciences and Technology	3,5
Social Sciences	3
Life Skills	<b>4</b>
• Creative Arts	(1,5)
• Physical Education	(1)
• Personal and Social Well-being	(1,5)
<b>TOTAL</b>	<b>27,5</b>

### 1.4.3 Senior Phase

(a) The instructional time in the Senior Phase is as follows:

SUBJECT	HOURS
Home Language	5
First Additional Language	4
Mathematics	4,5
Natural Sciences	3
Social Sciences	3
Technology	2
Economic Management Sciences	2
Life Orientation	2
Creative Arts	2
<b>TOTAL</b>	<b>27,5</b>

### 1.4.4 Grades 10-12

(a) The instructional time in Grades 10-12 is as follows:

SUBJECT	TIME ALLOCATION PER WEEK (HOURS)
Home Language	4.5
First Additional Language	4.5
Mathematics	4.5
Life Orientation	2
A minimum of any three subjects selected from <b>Group B</b> <u>Annexure B, Tables B1-B8</u> of the policy document, <i>National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12</i> , subject to the provisos stipulated in paragraph 28 of the said policy document.	12 (3x4h)
<b>TOTAL</b>	<b>27,5</b>

The allocated time per week may be utilised only for the minimum required NCS subjects as specified above, and may not be used for any additional subjects added to the list of minimum subjects. Should a learner wish to offer additional subjects, additional time must be allocated for the offering of these subjects.

## SECTION 2

### DANCE STUDIES

#### 2.1 What is Dance Studies?

Dance Studies has both a theoretical and a practical component. Learners acquire specific dance capabilities to create, express and communicate through dance. Dance Studies contributes to an appreciation of dance and an understanding of professional practice. This enables learners to pursue dancing and dance-related careers in the performing arts, entertainment, education, fitness and leisure industries.

Dance Studies uses daily dance practice, choreography and dance theory to promote fitness and a healthy lifestyle and equips learners with crucial life skills, such as self-discipline, creativity, critical thinking, leadership and teamwork, all of which will benefit them in any field of interest.

#### 2.2 Specific aims

Dance Studies aims to

- develop the body as an instrument of expression;
- promote safe dance practices;
- develop learners' dance technique, style, form and performance capabilities in a chosen dance form;
- expose learners to dances of different cultures;
- develop improvisation and problem-solving skills;
- enable learners to create, produce and present their own choreographies;
- develop the ability to analyse critically, respond, enjoy and make discerning judgements about dance; and
- develop the ability to engage with social, cultural, environmental and community issues through dance.

#### 2.3 Time allocation for Dance Studies

Dance Studies is allocated a minimum of four teaching hours per five-day week. This amounts to 40 hours per term and 160 hours per year. In addition, Dance Studies learners are expected to practise and rehearse at least twice per week outside of school hours. Extra mural classes after school should be made available that allow time to work on dance technique, or learners may be allowed to attend classes in private studios after school. Time will also be required outside of the timetable for learners to rehearse their choreography tasks.

Theory and practice go hand in hand in Dance Studies. Since the practical components of dance are time-consuming, the practical and theoretical work should be integrated, wherever possible.

As dance learners need to develop fitness, training should not stop during examination periods. At least twice per week schools should allocate double periods to allow sufficient time for changing into dance clothing, warming up, dance practice and cooling down.

## 2.4 Resources required to teach Dance Studies

- A dance studio or double classroom or school hall with a sprung wooden floor (essential)
- Mirrors along one wall (optional)
- Barres (essential for Ballet, optional for other dance forms)
- A dedicated music system with good sound and music CDs or iPod
- Music instruments (optional)
- A DVD player and screen, or data projector and computer/laptop
- Prescribed dance work DVDs - at least 6 DVDs over the three years of FET
- Dance text book, study guides, dance reference books and magazines
- Access to internet for research (optional)
- A workbook or file and a journal
- Dance wear appropriate to the dance major
- Teacher guide DVDs
- Storage space for workbooks and lockers for clothes
- Change rooms

### Selection of a Dance Major

Each of the many dance forms has its own dance language, terminology and training requirements. Schools need to identify which dance form they will offer as their dance major. Given the time allocation, it is not advisable for a school to attempt to offer more than one dance major, unless they have additional teachers and studios and an extended school day.

Writing a curriculum and identifying standards and levels of complexity required across dance forms is extremely challenging. This curriculum is written with the three most popular dance forms in South Africa in mind, namely

- African dance;
- classical ballet; and
- contemporary dance.

Schools and teachers wishing to offer Dance Studies in any other dance form need to apply to the Department of Basic Education, outlining how they will adapt the curriculum for their needs while maintaining the required level of rigour.

## Selection of learners

For safety reasons the number of learners in a practical dance class should not exceed 20. Learners must be auditioned and selected for this subject based on interest, enthusiasm, aptitude and talent.

## 2.5 Overview of topics and weighting

The core content consists of a broad study of dance as an art form, involving three interrelated topics, namely:

Broad topics	Time weighting: 4 hours per week, plus practice time after school.
Dance performance	60% of allocated time – minimum 2½ hours per week during school time, plus additional time after school.
Dance composition	20% of time, taught in modules
Dance history and literacy	20% of time, taught in modules

The broad topics of Dance Performance and Dance Composition involve acquiring physical, presentational, creative and interpretative skills as well as knowledge and understanding. The body is the instrument through which dance is experienced and realised. Physical training and preparation of the body is therefore fundamental. This training informs all three broad topics of the subject.

Learners may enter this course in grade 10 with a range of prior experiences. As a result, high percentages of the time allocation and the weighting have been allocated to the broad topic Dance Performance to provide for the necessary physical training.

## 2.6 Content

**Dance Performance** involves preparing the body as an instrument of expression. This includes safe dance practice, technique and style, health care and injury prevention. It also involves dance performance to a particular standard. It includes musicality and an introduction to indigenous dances of South Africa.

**Dance Composition** prepares learners for careers in the dance industry and includes improvisation, as well as the principles, processes and practices of choreographing dances. Learners are exposed to music genres, instruments and elements to guide them in the use of music for their choreographies. They are also given the opportunity to develop entrepreneurial skills in arts production management, such as organising, marketing and producing dance performances.

*In this document, the words composition and choreography are used interchangeably.*

**Dance History and Literacy** involves studying the basic development of dance in the past and present, dance principles, as well as the functions and values of dance. Learners study and research prescribed dance works (see Annexure E) and the related choreographers and composers. They develop their critical thinking abilities and their understanding of different artistic, social and cultural contexts of dance.

## 2.7 The Nature of Progression in Dance

The teaching of practical dance skills is both cyclical and linear. Dance skills are taught throughout the year, every subsequent year with increasing complexity.

Progression in dance skills manifests in:

- increased retention of dance movements, steps, sequences and whole dances;
- mastering of new concepts and skills;
- acquisition of movement vocabulary and terminology;
- increased awareness of detail and level of accuracy, strength, stamina and control;
- improved coordination of multiple body parts;
- increased musical ability and ability to recognise and interpret complex rhythms;
- increased confidence, self-discipline, focus and creativity;
- the ability to dance longer sequences incorporating various dance elements, such as increased speed, rapid changes of levels and directions;
- moving from dependence to independence;
- increased movement quality (fluency, fluidity, transitions and expression);
- an integration of knowledge, skills and values in application; and
- increased ability to work with others.

The table below outlines the content progression from Grade 10 – 12:

Topic 1: Dance performance

## 2.8 Teaching guidelines

### Teaching dance technique

- Guide and supervise the practical dance classes at all times.
- Learners need to warm up before every practical dance class and gradually develop a warm-up and body conditioning routine that is repeated in each class, to build fitness and body memory.
- Expose learners to a wide range of music genres and use various tempos to develop their listening skills and musicality.
- Teach dance movements and steps slowly (scaffolding the exercise to ensure an understanding of best practice). Sometimes, however, teach a dance combination quickly to challenge learners to watch and listen well and to learn combinations easily.
- Teach steps and combinations in the centre and then moving across the space.
- Ensure that learners have an opportunity to perform dance combinations in each class. Start teaching a simple combination and keep adding to it each week until the learners can perform the whole dance.
- Ensure that learners have open classes so that they learn to pick up unseen combinations quickly and easily.

**Teaching improvisation**

- Improvisations should be structured, with clear parameters. Never say, “do anything you like.”
- Learners must be guided to move with spontaneity, daring and confidence.
- Improvisations should be developed into compositions.

**Teaching dance theory**

- The teaching of the theory should be integrated with the practical work, but also taught separately. Use anatomical terms in the practical classes and use pictures, internet games, drawing, labelling and interactive methods to teach the anatomy and health care. Link theory to best dance practice, fitness and injury prevention. Develop thinking dancers.
- Encourage learners to read and research dance history and theories.
- Expose learners to live and video performances to teach them how to look at dance critically.
- Link Dance Literacy to choreography.
- Give learners opportunities to write about dance in order to develop their writing skills and to use dance terminology.

**Performance Assessment Tasks (PATs)** take place in every grade.

Grade 10	2 compulsory PATs	PAT 1: Composition of a sequence - term 2 PAT 2: Indigenous or cross-cultural dance term 3
Grade 11	2 compulsory PATs	PAT 1: Indigenous or cross-cultural dance - term 2 PAT 2: Choreography - term 3
Grade 12	2 compulsory PATs	PAT 1: Choreography - term 1 PAT 2: Group Dance - term 2/3

## SECTION 4

### ASSESSMENT

#### 4.1 Introduction

Assessment is a continuous planned process of identifying, gathering and interpreting information about the performance of learners. It involves four steps: generating and collecting evidence of achievement; evaluating this evidence; recording the findings and using this information to understand and thereby assist the learner's development in order to improve the process of learning and teaching.

Assessment should be both informal (assessment for learning) and formal (assessment of learning). In both cases, regular feedback should be provided to learners to enhance the learning experience.

In Dance Studies the approach to assessment and feedback should be constructive and encouraging to build learners' confidence. Since the body is the instrument for this subject, great care should be taken to avoid hurtful personal remarks.

#### 4.2 Informal or daily assessment

Assessment for learning has the purpose of continuously collecting information on a learner's achievement which can be used to improve his/her learning.

Informal assessment is a daily monitoring of learners' progress. This is done through observations, discussions, practical demonstrations, learner-teacher conferences, informal classroom interactions, etc. Informal assessment may be as simple as pausing during the lesson to observe learners or to discuss with them how learning is progressing. Informal assessment should be used to provide feedback to the learners and to inform planning for teaching, but need not be recorded. It should not be seen as separate from learning activities taking place in the classroom. Learners or teachers can mark these assessment tasks.

Self-assessment and peer assessment actively involves learners in assessment. This is important, as it allows learners to learn from and reflect on their own performance. The results of the informal daily assessment tasks are not formally recorded, unless the teacher wishes to do so. The results of daily assessment tasks are not taken into account for promotion and certification purposes.

#### 4.3 Formal assessment

All assessment tasks that make up a formal programme of assessment for the year are regarded as Formal Assessment. Formal assessment tasks are marked and formally recorded by the teacher for progression and certification purposes. All formal assessment tasks are subject to moderation for the purpose of quality assurance and to ensure that appropriate standards are maintained.

Formal assessment provides teachers with a systematic way of evaluating how well learners are progressing in a grade and in a particular subject. The forms of assessment used should be appropriate to the age and developmental level of learners. The design of these tasks should cover the content of the subject and include a variety of tasks designed to achieve the objectives of the subject.

Examples of formal assessments include tests, examinations, practical tasks, projects, oral presentations, demonstrations, performances, etc. Formal assessment tasks form part of a year-long formal programme of assessment in each grade and subject.

#### 4.4 Programme of assessment

The programme of assessment is designed to spread formal assessment tasks in all subjects in a school throughout a term.

##### 4.4.1 Programme of assessment for Dance Studies

The formal assessment requirements for Dance Studies are as follows:

- Two performance assessment tasks (PATs) per year for Grades 10-12. These PATs make up 25% of the final marks for Grades 10, 11 and 12.
- In Grades 10 and 11, one theory test, two practical tests, one mid-year theory and one mid-year practical examination as well as one research assignment make up the *school-based assessment which is worth 25% of the marks per year*.
- In Grades 10 and 11 the final examination in term 4 includes a practical examination and a theory examination. This makes up 50% of the *final mark*.
- In Grade 12 one theory test, one practical test, two theory examinations and two practical examinations make up the school-based assessment which is worth 25% of the marks.
- The final external theory and practical examinations make up 50% of the marks.

#### 4.4.2 Types of formal assessment for Dance Studies

**Tests** should be substantial and marked out of at least 50 marks.

**Research assignments** should encourage independent research and develop writing skills. Clear guidelines should be provided and plagiarism strongly discouraged.

Grade	Topic	Description
10	History of dance major	Origin, cultural and social background, timeline, influential people in the dance major internationally and in South Africa
11	South African choreographer of a prescribed dance work and the prescribed work	Biography, period, company, choreographer's stylistic characteristics, contribution to dance; description of the dance work, including intention, style, composer, production elements

**Performance assessment tasks (PATs)** should include both theoretical and practical aspects. The theory may be assessed as applied within the practical e.g. in the group dance

Grade 10	2 compulsory PATs	PAT 1: Composition of a sequence - term 2 PAT 2: Indigenous or cross-cultural dance - term 3
Grade 11	2 compulsory PATs	PAT 1: Indigenous or cross-cultural dance - term 2 PAT 2: Choreography - term 3
Grade 12	2 compulsory PATs	PAT 1: Choreography - term 1: PAT 2: Group dance - term 2 or 3:

In Grades 10 and 11, the performance assessment tasks (PATs) are internally set, internally assessed and externally moderated.

In Grade 12, the performance assessment tasks (PATs) are internally set, internally and peer assessed and externally moderated.

Refer to annexure C for instructions for Grade 12 PATs.

**Examinations** are both practical and theoretical and should prepare learners for their final external examinations.

#### Paper 1: Theory examinations

Refer to annexure C for the topics and weighting of the external theory examination paper.

The theory examination must cater for a range of cognitive levels and abilities of learners, as shown below:

Table 2

Cognitive levels	Percentage of task
Lower order: knowledge	30
Middle order: comprehension and application	50
Higher order: analysis, evaluation and creativity	20

### Paper 2: Practical examinations

The final practical examination in Grade 12 should take place between September and October. The examination is internally set according to the guidelines below and externally marked and moderated. (See Annexure D for the Grade 12 practical examination instrument)

#### Guidelines

The Grade 12 final external practical examination of the performance components will consist of:

1. A 30 minute comprehensive **class in the dance major to evaluate technical ability (4/5 learners at a time)**. *This is not a warm-up, but rather a summary of the technique learners have achieved in their dance major. It should show the main principles of the dance form.*
2. A choreographed **set solo of 1-2 minutes in the dance major (not in a mix of styles)**. *The solo needs to be set by a professional choreographer or the dance teacher and should be at the highest level of complexity that the candidate can manage. The level of complexity will influence the learner's final result. Each learner should personalise the solo.*
3. A solo or group **improvisation – candidates will be given the stimulus on the day.**

### 4.5 Recording and reporting

**Recording** is a process in which the teacher documents the level of a learner's performance in a specific assessment task. It indicates learner progress towards the knowledge, as prescribed in the Curriculum and Assessment Policy Statements. Records of learner performance should provide evidence of the learner's conceptual progression within a grade and his/her readiness to progress or be promoted to the next grade. Records of learner performance should also be used to verify the progress made by teachers and learners in the teaching and learning process.

#### Calculating the term marks for Dance Studies

- **Term mark:** add raw marks for each term 1- 3 including the PAT mark, and convert to a percentage for the term mark.
- **Promotion mark:** add raw marks for assessment tasks from term 1 to term 3 and convert to SBA 25%, convert PAT marks to 25%, convert term 4 paper 1 (Theory) to 25% and paper 2 (Practical) to 25%.

**Reporting** is a process of communicating learner performance to learners, parents, schools, and other stakeholders. Learner performance can be reported in a number of ways. These include report cards, parents' meetings, school visitation days, parent-teacher conferences, phone calls, letters, class or school newsletters, etc. Teachers in all grades report in percentages against the subject. Seven levels of competence have been described for each subject listed for Grades R-12. The various achievement levels and their corresponding percentage bands are shown in the table below.

**CODES AND PERCENTAGES FOR RECORDING AND REPORTING**

RATING CODE	DESCRIPTION OF COMPETENCE	PERCENTAGE
7	Outstanding achievement	80 – 100
6	Meritorious achievement	70 – 79
5	Substantial achievement	60 – 69
4	Adequate achievement	50 – 59
3	Moderate achievement	40 – 49
2	Elementary achievement	30 – 39
1	Not achieved	0 – 29

Teachers will record actual marks against the task by using a record sheet; and report percentages against the subject on the learners' report cards.

**4.6 Moderation of assessment**

Moderation refers to the process that ensures that the assessment tasks are fair, valid and reliable. Moderation should be implemented at school, district, provincial and national levels. Comprehensive and appropriate moderation practices must be in place for the quality assurance of all subject assessments.

Moderation in Dance Studies includes internal moderation by the school as well as external face-to-face and cluster moderation.

It is highly recommended that all practical examinations and performance assessment tasks are filmed and made available on video or DVD for moderation or in case of illness or injury (See annexure E.)

**4.6.1 Formal assessment (SBA)**

- Grades 10 and 11 tasks are moderated internally. Provincial officials must moderate a sample of these tasks during their school visits, to verify the standard of the internal moderation.
- Grade 12 tasks must be moderated internally and externally – face-to-face or cluster- by a lead teacher or provincial official. The provincial education department will manage the face-to-face and cluster moderation process.

**4.6.2 Practical assessment tasks (PAT)**

- Grades 10 and 11 PATs will be sample moderated by the provincial officials in the 3<sup>rd</sup> or 4<sup>th</sup> term. All documentation must be available for the official visit. The official will select the samples.
- Grade 12 PATs will be face-to-face moderated by a peer teacher and/or a provincial official.

**4.6.3 Final practical external examinations**

Provinces will appoint an external examination panel to include

1. provincial internal moderator;
2. provincial chief examiner; and

## 3. co-examiner(s).

The panel should vary to include at least one expert in the relevant dance form.

- Provinces will make all the arrangements. This includes the communication with the teachers and schools, arranging the venues, the times, the examining panel and anything else that needs to be done in the management of the practical NSC examinations for Grade 12.
- Before the final practical examinations begin, the provincial internal moderator will meet with the provincial examiners in order to orientate them on examination matters and finalise the assessment instruments.
- The provincial internal moderator will visit a sample of examination sites during the examinations in order to assure the quality of the examination process.
- The teachers responsible for the teaching of the practical component being examined will be expected to be present with the examiners to facilitate the conducting of the examination and to *present their practical year marks and the full breakdown of the school-based assessment marks (SBA) for moderation.*
- Note that the provincial chief examiner makes the final decision on the assessment mark.
- The maximum duration for the entire practical dance examination process is 6 weeks in term 3 and/or 4.

**Annexure B: Prescribed choreographers and dance works – draft list**

Selections may be made from the following list to study from Grades 10-12. The selection will be based on the availability of resources such as DVDs and written material and will be confirmed annually. Please note that this list will be updated from time to time. Schools will be informed well in advance regarding changes to this list.

South African choreographers	Dance works	International choreographers	Dance works
Veronica Paeper	Orpheus in the Underworld / Carmen	George Balanchine	Apollo /Jewels (emeralds, rubies, diamonds)
Vincent Mantsoe	Gula Matari	Alvin Ailey	Revelations
Alfred Hinkel	The Last Dance / Rain in a Dead man's Footprints / Cargo	Martha Graham	Lamentations Errand into the Maze
Sylvia Glasser	Tranceformations	Christopher Bruce	Ghost Dances
Gary Gordon	Bessie's Head	Mathew Bourne	Swan Lake/Cinderella
Mavis Becker	Flamenco de Africa	Pina Bausch	Rites of Spring
Hazel Acosta	Blood Wedding	William Forsythe	In the middle, somewhat elevated
Carolyn Holden	Imagenes	Mats Ek	Giselle / Swan Lake/ Carmen
Gregory Maqoma	Beauty Trilogy/ Skeleton Dry/ Somehow Delightful	Rudi van Dantzig	Four Last Songs
Dada Masilo	Swan Lake / Romeo and Juliet	Jiri Kylian	Wings of wax

**Annexure C: Performance Assessment Tasks (PATs)****PAT 1: Choreography***Instructions to teachers:*

Each learner should choreograph a **2–3-minute** dance work with 3 or more people, preferably not including themselves. It is preferred that each learner choreograph his/her own dance, but it is acceptable for two learners to work together on one choreography, provided that each learner contributes equally and can show his/her individual contribution. The teacher needs to monitor and explain this in each learner's individual journal.

Should learners struggle with commitment from their dancers, they may be permitted to present a duet that includes themselves, but only as a last resort. Teachers must monitor this situation and ensure the piece is choreographed and not improvised. The circumstances should be explained, justified and reflected upon in the choreographer's journal.

Please note the following:

**Genre/style/form:** The choreography is not limited to the dance major or any particular genre or style. Learners should have free range, be encouraged to move away from known steps and formations and to explore and create new movement vocabulary and structures.

**Use of dancers:** It is suggested that each learner-choreographer uses Grades 10-12 Dance Studies learners as dancers. To encourage these learners to be committed and consistent, it is suggested that marks are awarded for participation in Grade 12 choreographies as part of their group dance marks.

**Organising of rehearsals:** Please note that teachers must take responsibility for assisting learners with organising dance rehearsals and the sharing of rehearsal space. Teachers must monitor and be present during the rehearsal process.

**Choice of music:** A CD with a number of different music tracks is available through WCED's Edumedia. Learners are welcome to use these tracks or find their own. Please note that songs with words should be avoided.

An **AUTHENTICITY CERTIFICATE** must be placed in the choreography journal, guaranteeing that the work is the learners' own and that the teacher has witnessed it being rehearsed. It must be signed by both teacher and learner. Learners should avoid fraudulent actions such as

- using excerpts from other dancers/choreographers/teachers/music videos;
- using their dancers to choreograph their dance; and
- presenting improvised work as choreography.

**Assessment:** Learners should be informed in advance what criteria they will be individually assessed on in their choreographies. The marks should be based on

1. <u>Choreography journal</u> , including: self-reflection on their process how they translated the intention of the choreography into movement how they worked with their group in the choreographic process what has been learnt from the choreographic process their rehearsal timetable marketing plan for a performance production report	10
2. A one-page <u>programme note</u> for the dance of not more than 150 words on a single A4 sheet of paper.	5
3. <u>The choreography</u> , including composition in a personal style based on the stated concept	5
originality, creativity, imagination, innovation	5
skill in manipulation of the elements of dance (time, space and dynamics)	5
organisation of motifs and structures (transitions, repetition, variation, contrast)	5
appropriate use of production elements, e.g. costumes, props, lighting and sets	5
appropriate choice and use of accompaniment	5
use of dancers and dance quality	5
Total	50

### Assessment process

The teacher and a peer dance teacher/provincial dance official will assess the choreography internally. The performances should be filmed and available on DVD for moderation.

The assessment may take place in a public performance, together with other schools or in a class performance.

**PAT 2: Group Dance** *Instructions for teachers*

Performance of a group dance, minimum 3 minutes, in the dance major. This group dance should be performed in a public performance, if possible.

Learners learn a group dance which could be choreographed by the teacher or a professional choreographer, or could be an excerpt of a professional work. The group dance should develop and expand the learners' dance vocabulary and technique in the dance major and should challenge them. The dance should show learners' ability to communicate and relate to one another using partnering (lifts optional), spatial patterning and timing.

The group dance should allow learners to show variations in dynamics and create an atmosphere. This group dance could be performed in class or in a public performance. Emphasis should be placed on movement quality, transitions and expression.

Learners should be informed in advance what criteria they will be individually assessed on in the group dance (see instrument below).

**Planning of the production:** Learners should participate in the planning of a public dance performance at some time during the school year. This performance could include Grades 10 - 12 group dances and individual choreographies. The performance could take place in a formal or informal setting, e.g. in the studio or school hall, for a peer or public audience. Each learner should choose or be allocated a production organisational role. Learners should be required to work as a team to ensure their various tasks contribute to a successful production. Each learner should produce a written report, documenting his/her tasks and involvement in processes, and reflecting on the outcome of the production.

**Annexure E: Dancers with serious illness or injury**

Although dance is a practical subject, occasionally a learner finds he/she is unable to complete the practical components in Grade 12 due to a debilitating illness or injury. In this case the following procedures are required:

1. Apply to the provincial Head of Education with a motivating letter from the principal and the parents, and accompanied by a doctor's certificate of not older than one week, for permission for a dispensation.
2. The dispensation will allow for the school to submit a video/DVD of the learner's class or public performance within the last 6 months of Grade 12 and to present a written research project in lieu of one or both of the PATs, as described below:

Candidates research a dance topic in depth. This may be based on dance history, dance literacy or dance theory. Learners are required to present their research orally and in writing. The written research must be a minimum of 1 500 words and should include illustrations.

**Marking criteria**

- Suitability of the topic
- Planning of the research
- Structure of the writing (introduction of the topic and motivation, main body of the research, conclusion, clear referencing)
- Thorough knowledge and understanding of the topic
- Relevant selection of information
- Visual presentation of information
- Oral presentation of the research to the class/examination panel
- Logical and coherent writing

**All candidates must present a certificate of authenticity signed by the teacher and the learner.**

**Penalty for plagiarism = 0 marks**

**4.8 General**

This document should be read in conjunction with:

**4.8.1** *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*

**4.8.2** *The policy document, National Protocol for Assessment Grades R-12.*
