## FOREWORD BY THE MINISTER

Our national curriculum is the culmination of our efforts over a period of seventeen years to transform the curriculum bequeathed to us by apartheid. From the start of democracy we have built our curriculum on the values that inspired our Constitution (Act 108 of 1996). The Preamble to the Constitution states that the aims of the Constitution are to:

- heal the divisions of the past and establish a society based on democratic values, social justice and fundamental human rights;
  - improve the quality of life of all citizens and free the potential of each person;
  - lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law; and
- build a united and democratic South Africa able to take its rightful place as a sovereign state in the family of nations.

Education and the curriculum have an important role to play in realising these aims.

In 1997 we introduced outcomes-based education to overcome the curricular divisions of the past, but the experience of implementation prompted a review in 2000. This led to the first curriculum revision: the *Revised National Curriculum Statement Grades R-9* and the *National Curriculum Statement Grades 10-12* (2002).

Ongoing implementation challenges resulted in another review in 2009 and we revised the *Revised National Curriculum Statement* (2002) to produce this document.

From 2012 the two 2002 curricula, for *Grades R-9* and *Grades 10-12* respectively, are combined in a single document and will simply be known as the *National Curriculum Statement Grades R-12*. The *National Curriculum Statement for Grades R-12* builds on the previous curriculum but also updates it and aims to provide clearer specification of what is to be taught and learnt on a term-by-term basis.

The *National Curriculum Statement Grades R-12* accordingly replaces the Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines with the

- (a) Curriculum and Assessment Policy Statements (CAPS) for all approved subjects listed in this document;
- (b) *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*; and
- (c) *National Protocol for Assessment Grades R-12*.

### INTRODUCTION TO THE CURRICULUM AND ASSESSMENT POLICY STATEMENTS FOR MUSIC GRADES 10-12

#### 1.1 Background

The *National Curriculum Statement Grades R-12 (NCS)* stipulates policy on curriculum and assessment in the schooling sector.

To improve implementation, the National Curriculum Statement was amended, with the amendments coming into effect in January 2012. A single comprehensive Curriculum and Assessment Policy document was developed for each subject to replace Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines in Grades R-12.

#### 1.2 Overview

- (a) The *National Curriculum Statement Grades R-12 (January 2012)* represents a policy statement for learning and teaching in South African schools and comprises the following:
- (i) *Curriculum and Assessment Policy Statements for each approved school subject;*
  - (ii) *The policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
  - (iii) *The policy document, National Protocol for Assessment Grades R-12 (January 2012).*
- (b) The *National Curriculum Statement Grades R-12 (January 2012)* replaces the two current national curricula statements, namely the
- (i) *Revised National Curriculum Statement Grades R-9, Government Gazette No. 23406 of 31 May 2002, and*
  - (ii) *National Curriculum Statement Grades 10-12 Government Gazettes, No. 25545 of 6 October 2003 and No. 27594 of 17 May 2005.*
- (c) The national curriculum statements contemplated in subparagraphs b(i) and (ii) comprise the following policy documents which will be incrementally repealed by the *National Curriculum Statement Grades R-12 (January 2012)* during the period 2012-2014:
- (i) *The Learning Area/Subject Statements, Learning Programme Guidelines and Subject Assessment Guidelines for Grades R-9 and Grades 10-12;*
  - (ii) *The policy document, National Policy on assessment and qualifications for schools in the General Education and Training Band, promulgated in Government Notice No. 124 in Government Gazette No. 29626 of 12 February 2007;*

- (iii) *The policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), promulgated in Government Gazette No.27819 of 20 July 2005;*
- (iv) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding learners with special needs, published in Government Gazette, No.29466 of 11 December 2006, is incorporated in the policy document, National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*
- (v) *The policy document, An addendum to the policy document, the National Senior Certificate: A qualification at Level 4 on the National Qualifications Framework (NQF), regarding the National Protocol for Assessment (Grades R-12), promulgated in Government Notice No.1267 in Government Gazette No. 29467 of 11 December 2006.*
- (d) The policy document, *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12*, and the sections on the Curriculum and Assessment Policy as contemplated in Chapters 2, 3 and 4 of this document constitute the norms and standards of the *National Curriculum Statement Grades R-12*. It will therefore, in terms of section 6A of the *South African Schools Act, 1996 (Act No. 84 of 1996)*, form the basis for the Minister of Basic Education to determine minimum outcomes and standards, as well as the processes and procedures for the assessment of learner achievement to be applicable to public and independent schools.

### 1.3 General aims of the South African Curriculum

- (a) The *National Curriculum Statement Grades R-12* gives expression to the knowledge, skills and values worth learning in South African schools. This curriculum aims to ensure that children acquire and apply knowledge and skills in ways that are meaningful to their own lives. In this regard, the curriculum promotes knowledge in local contexts, while being sensitive to global imperatives.
- (b) The National Curriculum Statement Grades R-12 serves the purposes of:
- equipping learners, irrespective of their socio-economic background, race, gender, physical ability or intellectual ability, with the knowledge, skills and values necessary for self-fulfilment, and meaningful participation in society as citizens of a free country;
  - providing access to higher education;
  - facilitating the transition of learners from education institutions to the workplace; and
  - providing employers with a sufficient profile of a learner's competences.
- (c) The National Curriculum Statement Grades R-12 is based on the following principles:
- Social transformation: ensuring that the educational imbalances of the past are redressed, and that equal educational opportunities are provided for all sections of the population;
  - Active and critical learning: encouraging an active and critical approach to learning, rather than rote and uncritical learning of given truths;

- High knowledge and high skills: the minimum standards of knowledge and skills to be achieved at each grade are specified and set high, achievable standards in all subjects;
  - Progression: content and context of each grade shows progression from simple to complex;
  - Human rights, inclusivity, environmental and social justice: infusing the principles and practices of social and environmental justice and human rights as defined in the Constitution of the Republic of South Africa. The National Curriculum Statement Grades R-12 is sensitive to issues of diversity such as poverty, inequality, race, gender, language, age, disability and other factors;
  - Valuing indigenous knowledge systems: acknowledging the rich history and heritage of this country as important contributors to nurturing the values contained in the Constitution; and
  - Credibility, quality and efficiency: providing an education that is comparable in quality, breadth and depth to those of other countries.
- (d) The National Curriculum Statement Grades R-12 aims to produce learners that are able to:
- identify and solve problems and make decisions using critical and creative thinking;
  - work effectively as individuals and with others as members of a team;
  - organise and manage themselves and their activities responsibly and effectively;
  - collect, analyse, organise and critically evaluate information;
  - communicate effectively using visual, symbolic and/or language skills in various modes;
  - use science and technology effectively and critically showing responsibility towards the environment and the health of others; and
  - demonstrate an understanding of the world as a set of related systems by recognising that problem solving contexts do not exist in isolation.
- (e) Inclusivity should become a central part of the organisation, planning and teaching at each school. This can only happen if all teachers have a sound understanding of how to recognise and address barriers to learning, and how to plan for diversity.

The key to managing inclusivity is ensuring that barriers are identified and addressed by all the relevant support structures within the school community, including teachers, District-Based Support Teams, Institutional-Level Support Teams, parents and Special Schools as Resource Centres. To address barriers in the classroom, teachers should use various curriculum differentiation strategies such as those included in the Department of Basic Education's *Guidelines for Inclusive Teaching and Learning* (2010).

## 1.4 Time Allocation

### 1.4.1 Foundation Phase

(a) The instructional time in the Foundation Phase is as follows:

SUBJECT	GRADE R (HOURS)	GRADES 1-2 (HOURS)	GRADE 3 (HOURS)
Home Language	10	8/7	8/7
First Additional Language		2/3	3/4
Mathematics	7	7	7
Life Skills	<b>6</b>	<b>6</b>	<b>7</b>
• Beginning Knowledge	(1)	(1)	(2)
• Creative Arts	(2)	(2)	(2)
• Physical Education	(2)	(2)	(2)
• Personal and Social Well-being	(1)	(1)	(1)
<b>TOTAL</b>	<b>23</b>	<b>23</b>	<b>25</b>

(b) Instructional time for Grades R, 1 and 2 is 23 hours and for Grade 3 is 25 hours.

(c) Ten hours are allocated for languages in Grades R-2 and 11 hours in Grade 3. A maximum of 8 hours and a minimum of 7 hours are allocated for Home Language and a minimum of 2 hours and a maximum of 3 hours for Additional Language in Grades 1-2. In Grade 3 a maximum of 8 hours and a minimum of 7 hours are allocated for Home Language and a minimum of 3 hours and a maximum of 4 hours for First Additional Language.

(d) In Life Skills Beginning Knowledge is allocated 1 hour in Grades R-2 and 2 hours as indicated by the hours in brackets for Grade 3.

### 1.4.2 Intermediate Phase

(a) The instructional time in the Intermediate Phase is as follows:

SUBJECT	HOURS
Home Language	6
First Additional Language	5
Mathematics	6
Natural Sciences and Technology	3,5
Social Sciences	3
Life Skills	<b>4</b>
• Creative Arts	(1,5)
• Physical Education	(1)
• Personal and Social Well-being	(1,5)
<b>TOTAL</b>	<b>27,5</b>

### 1.4.3 Senior Phase

(a) The instructional time in the Senior Phase is as follows:

SUBJECT	HOURS
Home Language	5
First Additional Language	4
Mathematics	4,5
Natural Sciences	3
Social Sciences	3
Technology	2
Economic Management Sciences	2
Life Orientation	2
Creative Arts	2
<b>TOTAL</b>	<b>27,5</b>

### 1.4.4 Grades 10-12

(a) The instructional time in Grades 10-12 is as follows:

SUBJECT	TIME ALLOCATION PER WEEK (HOURS)
Home Language	4.5
First Additional Language	4.5
Mathematics	4.5
Life Orientation	2
A minimum of any three subjects selected from <b>Group B</b> <u>Annexure B, Tables B1-B8</u> of the policy document, <i>National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12</i> , subject to the provisos stipulated in paragraph 28 of the said policy document.	12 (3x4h)
<b>TOTAL</b>	<b>27,5</b>

The allocated time per week may be utilised only for the minimum required NCS subjects as specified above, and may not be used for any additional subjects added to the list of minimum subjects. Should a learner wish to offer additional subjects, additional time must be allocated for the offering of these subjects.

## SECTION 2

### 2.1 What is Music, the subject?

Music is the art of organising sounds and silence, expressing intellectual, emotional and spiritual aspects of human experience. Music is an art form that can be combined with other forms, and is often enhanced by technology. It can communicate a broad range of historical, cultural and socioeconomic ideas and issues. Music has the power to unite groups and to mobilise community involvement for the improvement of quality of life, social healing, and affirmation of human dignity.

### 2.2 Aims

Grade 10-12 Music learners will develop:

- technical control over one or more music instrument(s) or the voice;
- performance skills by way of performing a wide variety of musical works, in solo and group (ensemble) context, ranging from Western art music and jazz to indigenous African music (IAM);
- ability to read music notation(s);
- creativity through improvisation and working with own music ideas;
- understanding of existing works of music with regard to compositional techniques used, application of musical elements in existing musical works and placing these in a specific historical and cultural context;
- awareness of various musical traditions; and
- appreciation for various styles of music.

### 2.3 Instruments that may be offered

- keyboard instruments
- voice
- recorder
- guitar
- orchestral instruments
- percussion (three instruments)
- band instruments
- drum kit
- indigenous African instruments
- Indian instruments
- steel pan

**2.4 Streaming**

The CAPS offers schools the opportunity to specialise in one of following three streams:

- (a) Western art music (**WAM**)
- (b) Jazz
- (c) Indigenous African music (**IAM**)

In Grade 10, term 1 and part of term 2 content is common across the three streams.

In Grade 11, each stream is introduced to the other two.

In Grade 12, terms 3 and 4 remain common across the streams.

Learners would mostly choose to perform pieces in the style of the chosen stream. For example if they present IAM they would want to play African pieces on African instruments. Learners are however also allowed to mix the style of the chosen stream with a different style in the practical. For example a WAM learner may choose to play one or more jazz pieces, or an IAM candidate may perform Western pieces on the violin.

They will however not be able to mix the styles within Topic 3, because question papers will require them to answer an entire section on either WAM, or jazz, or IAM.

## 2.5 Time allocation for Music

Music is allocated four teaching hours per five-day week. In addition to this, learners are expected to devote time to practice outside school time. In the event of more time being allocated, that time should be used for group activities such as ensemble rehearsals.

## 2.6 Progression

Progression in both the practical and the theory aspects of music is expressed here in terms of levels. There are three performance (practical and theoretical) levels each indicating **minimum** levels of competency to be reached at the end of the year.

- (a) **Elementary** performance level for the Western art music and jazz should be comparable to Grade 2 of external examination bodies. Learners should aim for higher levels than the minimum. **Elementary level for African music will be based on the DBE guidelines.**
- (b) **Intermediate** performance level for Western art music and jazz should be comparable to Grade 4 of external examination bodies. Learners should aim for higher levels than the minimum. **Intermediate level for African music will be based on the DBE guidelines**
- (c) **Advanced** performance level for Western art music and aim for higher levels than the minimum. **Advanced level for African music will be based on the DBE guidelines.**

School grade	Performance level
Grade 10	Elementary
Grade 11	Intermediate
Grade 12	Advanced

## 2.7 Teachers

- Schools should if possible appoint teachers trained in music with a minimum of a BMus, BA Mus degrees, or licentiate diplomas from Unisa, Trinity or ABRSM. Where this is impossible, teachers should be trained to attain the necessary competency levels to teach the content of the CAPS.
- Instruction in the chosen instrument should be given by a trained musician. This could be an itinerant music teacher shared by a cluster of schools.
- Schools could enlist the expertise of an indigenous African music practitioner.

## SECTION 3

## 3.1 Overview of topics and weighting

	Broad topics	Description	Time weighting: 4 hours per week
1.	Musical performance and improvisation	Development of skills in <b>solo</b> and <b>ensemble</b> <sup>1</sup> performance Development of skills in improvisation	2 hours per week - practice time to be added as needed by learner according to level and skill
2.	Music literacy	Music theory and notation Aural awareness of theory Sight-singing Harmony and knowledge of music terminology	1 hour per week
3	General music knowledge and analysis	Form and structure History of Western art music or jazz or indigenous African music and their composers or performers Music genres South African music industry.	1 hour per week

**(Footnotes)**

1 All learners should belong to an ensemble. Ideally, the school should constitute various ensembles that would enable individual learners to experience a variety of musical styles in practice.

Improvisation is a practical activity in which learners should apply principles relating to music styles ranging from jazz, indigenous African music to Western music practice.

Music	Grade 12	Term 4
<b>Examination season</b>		

## SECTION 4

### 4.1 Introduction to assessment

Assessment is a continuous planned process of identifying, gathering and interpreting information about the performance of learners, using various forms of assessment. It involves four steps: generating and collecting evidence of achievement, evaluating this evidence, recording the findings and using this information to understand and thereby assist the learner's development in order to improve the process of learning and teaching.

Assessment should be both informal (Assessment for Learning) and formal (Assessment of Learning). In both cases regular feedback should be provided to learners to enhance the learning experience.

#### 4.1.1 Assessment in Music

There are **seven** performance assessment tasks (PATs) in Grade 12 and **six** PATs in Grades 10 and 11. Learners who choose the IAM and Afrophonia/Jazz streams in grades 10 and 11 may choose three genres in each category respectively from Chart 1 each year. Learners who choose the IAM and Afrophonia/Jazz streams in grade 12 may choose four genres in IAM and three in Afrophonia/Jazz respectively from Chart 1. Chart 2 provides guidelines of assessing knowledge and skill required in each grade. The level of complexity of songs is not determined by the compositional density of the repertoire but by graded criteria mapped out in Chart 2. These constitute the year mark for Music, which forms 25% of the promotion mark. The remaining 75% is obtained from the final external examination.

The PATs correspond closely with the curriculum material for Music and form part of the teaching and assessment activities. They must be employed as on-going assessment tools and serve to ensure that all aspects of the curriculum are covered.

The order in which the PATs are completed is not specified, but merely suggested. Teachers should ensure that the completion of these PATs is evenly spaced during the first three terms of the academic year.

### 4.2 Informal or daily assessment

Assessment for learning has the purpose of continuously collecting information on individual learners' achievement that can be used to improve their learning.

Informal assessment is a daily monitoring of learners' progress. This is done through observations, discussions, practical demonstrations, learner-teacher conferences, informal classroom interactions, et cetera. Informal assessment may be as simple as stopping during the lesson to observe learners or to discuss with learners how learning is progressing. Informal assessment should be used to provide feedback to the learners and to inform planning for teaching, but need not be recorded. It should not be seen as separate from learning activities taking place in the classroom. Learners or teachers can mark these assessment tasks.

Self-assessment and peer assessment actively involve learners in assessment. This is important as it allows learners to learn from and reflect on their own performance. The results of the informal daily assessment tasks are not formally recorded unless the teacher wishes to do so. The results of daily assessment tasks are not taken into account for promotion and certification purposes.

### 4.3 Formal assessment

All assessment tasks that make up a formal programme of assessment for the year are regarded as formal assessment. Formal assessment tasks are marked and formally recorded by the teacher for progression and certification purposes. All formal assessment tasks are subject to moderation for the purpose of quality assurance and to ensure that appropriate standards are maintained.

Formal assessment provides teachers with a systematic way of evaluating how well learners are progressing in a grade and in a particular subject. Examples of formal assessments include tests, examinations, practical tasks, projects, oral presentations, demonstrations, performances, et cetera. Formal assessment tasks form part of a year-long formal Programme of Assessment in each grade and subject.

Grades	Tasks undertaken during the year (%)	End-of-year examination (%)
R - 3	100	n/a
4 - 6	75	25
7 - 9	40	60
10 and 11	25	75
12	25	External examination: 75

#### 4.3.1 Practical Assessment Tasks (PATs)

Complete information about the PATs is provided in the PAT document.

The following Practical Assessment Tasks (PATs) are required. These tasks may be done in any order. They should be evenly spaced during the first three terms of the year.

### 4.3.2 Written assignments

#### Grade 10

Learners conduct research on their instruments of choice, paying attention to the following: how sound is produced, the makeup of the instrument, how to look after the instrument, best body position for practising and performing. For singers, this should also include the understanding of the vocal chords and how these determine their own types of voices, how vocal sound is produced, how to keep the voice healthy, and what to avoid in order to protect it.

#### Grade 11

Learners have a choice between two topics: (a) **Film music** or (b) **The influence of technology on music**.

**Film music:** Learners choose own film (preferably an SA film) and analyse the role music plays to create elements like tension, expectation, romance, adventure and the general feel of the film. Learners hold structured class/group discussions, focusing on the style of the music and the elements used to create emotions.

**The influence of technology on music:** Learners do research on how technology influenced music from the beginning (making of primitive instruments) to the computer programs and internet. Learners hold structured class/group discussions demonstrating their appreciation of technological developments in music performance, production and dissemination (distribution).

#### Grade 12

The written assignments for Grade 12 are done according to the stream chosen by the candidate: Western Art Music (WAM) or Jazz or Indigenous African Music (IAM).

**WAM:** Learners write an assignment on the sonatas of their chosen instruments or on the development of the oratorio for singers. One specific work must be listened to and analysed. The learner must know all the melodies of at least one movement. For the oratorio, learners study the development of the genre and choose one oratorio to listen to and analyse in their own time. The learner must be able to recognise the arias of the chosen oratorio.

**Jazz:** Learners compare and contrast the contributions made by a vocalist (Miriam Makeba or any other) and that made by an instrumentalist (Hugh Masekela or any other) to today's music; or discuss the importance of university education for jazz musicians, citing only two examples.

**IAM:** Learners visit or recreate an authentic cultural musical event. Learners should demonstrate their awareness of the relevance of music in the ritual or ceremony, and also be able to comment on the elements of IAM, including how they manifest in a performative communication.

The forms of assessment used should be age and developmental level appropriate. The design of these tasks should cover the content of the subject and include a variety of tasks designed to achieve the objectives of the subject.

### 4.3.3 Examinations

<b>TOTAL</b>	<b>150</b>

For the purposes of this examination an ensemble must consist of 2 - 8 persons. Each performer (learner) must play an independent part which is not doubled by another performer's part. All aspects of the practical components will be assessed during the final practical examination.

<b>TOTAL</b>		<b>30 marks</b>

This paper will be written whilst listening to soundtracks on an examination CD. All questions are based on these sound tracks. Each track will be played a specified number of times. Every Grade 12 examination centre will be provided with an audio CD, which must be played to the candidates during the final examination. Because of the progression from Grade 10 to 12, background knowledge from Grade 10 and 11 may be assessed in Grade 12.

#### 4.3.4 Cognitive levels

Formal assessments must cater for a range of cognitive levels and abilities of learners as shown below:

**Table 1**

Cognitive Levels	Activity	Percentage of Task
Higher order	Analysing, evaluating, creating	30%
Middle order	Understanding, applying	40%
Lower order	Knowledge, remembering	30%

#### 4.4 Programme of assessment

The Programme of Assessment is designed to spread formal assessment tasks across all subjects in a school throughout a term.

##### 4.4.1 The requirements (number and nature of tasks) for Music

These requirements are indicated below:

#### 4.5 Recording and reporting

Recording is a process in which the teacher documents the level of a learner's performance in a specific assessment task. It indicates learner progress towards the achievement of the knowledge as prescribed in the Curriculum and Assessment Policy Statements. Records of learner performance should provide evidence of the learner's conceptual progression within a grade and her or his readiness to progress or for being promoted to the next grade. Records of learner performance should also be used to verify the progress made by teachers and learners in the teaching and learning process.

Reporting is a process of communicating learner performance to learners, parents, schools, and other stakeholders. Learner performance can be reported in a number of ways. These include report cards, parents' meetings, school visitation days, parent-teacher conferences, phone calls, letters, class or school newsletters, et cetera. Teachers in all grades report in percentages against the subject. The various achievement levels and their corresponding percentage bands are as shown in the table below.

#### 4.6 Codes and percentages for recording and reporting

RATING CODE	DESCRIPTION OF COMPETENCE	PERCENTAGE
7	Outstanding achievement	80 - 100
6	Meritorious achievement	70 - 79
5	Substantial achievement	60 - 69
4	Adequate achievement	50 - 59
3	Moderate achievement	40 - 49
2	Elementary achievement	30 - 39
1	Not achieved	0 - 29

Teachers will record actual marks against the task by using a record sheet; and report percentages against the subject on the learners' report cards.

#### 4.7 Moderation of assessment

Moderation refers to the process that ensures that the assessment tasks are fair, valid and reliable. Moderation should be implemented at school, district, provincial and national levels. Comprehensive and appropriate moderation practices must be in place for the quality assurance of all subject assessments.

##### 4.7.1 Moderation of the assessment tasks - three levels

Moderation of the assessment tasks should take place at three levels.

LEVEL	MODERATION REQUIREMENTS
School	<ul style="list-style-type: none"> <li>The programme of assessment should be submitted to the subject head and school management team before the start of the academic year for moderation purposes.</li> <li>Each task which is to be used as part of the programme of assessment should be submitted to the subject head for moderation before learners attempt the task.</li> <li>Teacher portfolios and evidence of learner performance should be moderated twice a year by the head of the subject or her/his delegate.</li> </ul>
Cluster/district/region	Teacher portfolios and a sample of evidence of learner performance must be moderated twice during the first three terms.
Provincial/national	Teacher portfolios and a sample of evidence of learner performance must be moderated once a year.

#### 4.8 General

This document should be read in conjunction with:

**4.8.1** *National policy pertaining to the programme and promotion requirements of the National Curriculum Statement Grades R-12; and*

**4.8.2** The policy document, *National Protocol for Assessment Grades R-12*.

## APPENDIXES

### Curriculum and assessment glossary

*Aesthetic realm.* This is a realm where learners use their developing taste to decide what they prefer in creative works; according to what they find attractive and well composed; what excites their interest; and what provokes stimulating ideas, affirm, appreciate and acknowledge - responding positively to the cultural activities and productions of others by being interested enough to learn about them, to show them respect and to encourage their right to support and attention.

*Appropriate audience behaviour.* This entails acquiring the conventions of behaviour when watching or listening to a performance, such as when to clap, when to be silent, when to respond. There is no single set of conventions for this since these conventions are culturally bound.

*Artefact.* This is something made by a person, a product of human art and workmanship.

*Classical/traditional arts.* These are usually (but not always) older forms of art that tend to have been recorded, studied and made part of a cultural heritage - that which is regarded as "classical" or "traditional" changes over time. See **emergent arts and disappearing and neglected art forms.**

*Contemporary issues.* Topics that are being discussed at the present time culture include the intellectual, spiritual, aesthetic, emotional, moral and material concerns of people. The learner will need to understand that culture relates to ways of living and to the making of meaning at specific times and in specific places. Learners should also realise that cultures have histories and contexts, that they change and that they influence and are influenced by other cultures.

*Design concepts.* These encompass the use of space, shape, form and line, plot, construction, and compositional elements (e.g. structure, length, size), as well as contrasts, colour and other kinds of design that are used to contribute to the making of different art forms. Certain disappearing and neglected art forms have died out over time through the dominance of other cultural forces and because of changes brought about by technology. In South Africa, the art forms that are being lost or that have been neglected are usually indigenous, but not always so.

*Aerophones.* Aerophones make up a genre of wind instruments in African music (e.g. Dinaka and Tshikona single note flutes). These include wind sounders (e.g. flutelike, lip-blown, reed-blown instruments).

*Articulation:* In singing or playing an instrument, articulation is the clear and distinct rendering of tones, comparable to enunciation in speech.

*Base slapping.* This is hitting the rim of a drum with the fingers.

*Blues.* Blues is a type of folk song originating among African-Americans.

*Brass.* The brass section consists of the trumpet, horn and related instruments when it forms part of an orchestra or wind band.

*Canon.* This is either strict imitation or a composition where imitation plays the main part.

*Chordophone.* A chordophone is an African string instrument like the lyre and the kora.

*Common time.* This is regular time, 4/4.

*Crepitation.* This is a sound technique that is often used with vocalic lilt and mouth drumming, as in the exhilarating vocal effects used to climax musical situations in African music.

*Crotchet.* A crotchet is a quarter of a semibreve.

**Dynamics.** Words, abbreviations, and signs used to indicate relative loudness and softness of sound

*Idiophones.* These are one-tone music instruments (self-sounders) that combine in one element the properties of both a vibrator and a resonator, which are:

- struck together - cymbals, clappers, castanets
- struck - bells, gongs, woodblocks, chimes, xylophones, metallophones
- stamped on - pits, slit drums
- stamped against the ground - sticks, tubes, gourds
- shaken - rattles, jingles
- scraped - notched sticks, shells
- plucked - jew's-harp/mbira, music box
- rubbed to cause friction - "musical glasses"

*Emergent arts.* These are contemporary, experimental, or historically marginalised art forms that challenge conventional or traditional art practices. Each era produces its own emergent arts.

*Genre.* A genre is a kind or category of dance, music, drama, or art.

*Heritage.* Heritage encompasses traditions, memories, histories and experiences of communities that are inherited or passed on from one generation to another.

*Hidden messages, bias, stereotypes and propaganda.* These are the means by which forms of mass media seek to influence ways in which people think and feel about issues.

*Human rights.* A human right is the right of every person to fair and just treatment; all people have the right to live their lives to the fullest potential, as well as equal access to all social, economic, political and cultural processes in their country. The *Constitution and the Bill of Rights* contain South Africa's understanding of what human rights are.

*Indlamu u/famo.* This is a complex cultural genre of the Zulus and Basotho that incorporates song, dance, drama, poetry, and design.

*Kgati.* This is a skipping game, which employs rhythm, time, and limericks for problem solving

*Kiba/Mmapadi.* This is a cultural complex genre of the Bapedi that uses song, dance, drama, poetry and design as integral elements.

*Kinaesthetic.* This refers to the awareness of senses of movement and touch.

*Literacies.* Literacies are learned skills for interpreting appropriately. They include

- **oral:** understanding spoken stories, histories and experiences;
- **aural:** ability to interpret through listening to oral, musical and dramatic works;
- **visual:** proficiency at expressing opinions about, making, appreciating and interpreting visual art works;

- **spatial:** ability to interpret and use distance, height, depth and breadth; and
- **kinaesthetic:** awareness of the meanings of movement and touch.

*Malende.* This is a complex cultural genre of the Venda people that uses song, dance, drama, poetry and design.

*Masekitlana.* This is a children's game popular among the Sothos (Bapedi, Batswana, Basotho) of South Africa. It uses stones to tell stories and impersonate characters. The game can be used as an assessment activity for creative composition of drama and for storytelling among children.

*Mutshongolo.* This is a culturally complex genre of the Tsongas that incorporates song, dance, drama, poetry, and design.

*Natural, found, recycled and manufactured resources.* These are objects that are owned, picked up, reused or taken from nature, and that can be obtained from the learner's environment, whether built or natural, and transformed in character when used in artworks.

*Stereotype.* A stereotype arises when all members of a group are regarded as the same (e.g. "all men are untrustworthy"). Stereotypes are often contained in extreme prejudice such as racism, sexism, homophobia, and xenophobia.

*Tall stories, lies, fantasies and absurd tales.* These are accounts that have no basis in truth or reality, that are marked by exaggeration and distortion as in tall stories which constitute deliberate concealment of the truth, as also in lies; and wishes and dreams form part of fantasies.

*Tshikona.* This is culturally complex genre coming from the Venda people that uses song, dance, drama, poetry and design.

## INDIGENOUS MUSICAL ARTS GENRES OF SOUTH AFRICA

**Chronicler:** A singer, storyteller, praise singer that presents a series of heroic and important events through song or praise or a narrative.

**Choric interlocutors:** Mediator of the chorus, drummers and the audience's discourse. through song. In Sepedi the person doing this role is called a malokwane

Praise chroniclers: A singer that presents a series of heroic and important events through song or praise

**Drumlocutors:** The drum statements in an ensemble performance is regarded as a drum discourse or drum interlocution. This thinking is based on the premise that looks at an indigenous musical arts performance as a system of communication.

Audience-interlocutors: In the indigenous musical arts context, the audience has a discourse of its own that comprises ululations, crepitations, praise text, cheers and jeers.

**Ellipses:** an incomplete expression or performance that could end in laughter without a recognisable ending.

**Cues :** music signals or indicators that suggest a need for a response or change of the progression.

**Call:** is a melody or rhythm segment that signals a need for a musical response.

**Maxims:** Rules of interaction through music that spell out rules of politeness and song and dance behaviour in a communal performance context. Different maxims apply for men and for women.

**Performance protocol:** Communal rule of sequencing repertoire in communal performance. These include relevance to context.

**Afrophonia:** This concept refers to the general ambiance of African music motifs of the music.

**Modern constructs:** These are new music styles in the music business domain or popular music realm adapted from indigenous African music genres.

**Nomenclatures:** These are short hand representations of scales

**Divinity in African music performance:** This refers to the role and perspectives of different spiritual practices in African indigenous music traditions.

**Historical chronicles:** a presentation of genealogical history of a particular royal family or community.

**Making contextual commentary:** commentary made within a context of performance. The comments are usually different from one context to another.

**Use of phoneaesthetics:** use of sound that represent other ideas or a instrument.

**Crepitations:** a sound used to exhort, short excitement, or approval.

**Stage directions:** this refers to a comment made in relation to space on the floor of performance, tempo, rhythm, or any other performance element.

**Mouth drumming:** vocal representation of the drum sound in words.

**Call and refrain:** a refrain from a response.

**Call and Chorused refrain:** it is a refrain from a usual mere sentence completion response to the call. The chorus response may include a phoneaesthetic instead of a conventional 'sentence completion' approach.

**The mixed structural form:** a combination of the call and response, call and refrain, and call and chorus refrain: this is when a chorus uses neither the ending sentence/phrase to respond to the call.

**Overlapping:** this is when the response to the call begins before the call ends. The overlaps may comprise of a number of layers.
