1. Introduction

The National Curriculum Statement, Grades R-12 was approved as National Policy and published in the Government Gazette 34600, Notices 722 and 723 of 12 September 2011.

The National Curriculum Statement, Grades R-12 comprises:

- The Curriculum and Assessment Policy Statements for all approved subjects for Grades R-12;
- The National Policy Pertaining to the Programme and Promotion Requirements of the National Curriculum Statement Grades R-12; and
- The National Protocol for Assessment.

The Curriculum and Assessment Policy Statement (CAPS) is a single, comprehensive, and concise document developed for all subjects listed in the National Curriculum Statement Grades R-12 and is arranged into Four Sections.

The National State of Disaster due to Covid and the ensuing lockdown has created a unique situation which has disrupted the school calendar thus impacting on the implementation of the Curriculum and Assessment Policy Statement (CAPS) for the 2020 academic year. To mitigate the impact of the Covid lockdown, the Department of Basic Education (DBE) working in collaboration Provincial Education Departments (PEDs), has put together a framework for curriculum recovery plans after the extended lockdown. The framework, which was consulted with key stakeholders in the sector, proposes a revised school calendar and curriculum reorganization and trimming, as some of the strategies to create opportunities for curriculum recovery.

In the context of the framework for the school curriculum recovery plan whose overarching aim is to ensure that the critical skills, knowledge, values and attitudes outlined in the CAPS are covered over a reduced time period, the purpose of curriculum reorganisation and trimming is to:

- Reduce the envisaged curriculum to manageable core content including skills, knowledge, attitudes and values so that schools have ample room for deep and meaningful learning
- Define the core knowledge, skills, attitude to be taught and assessed more specifically so that it provides guidance and support to teachers;
- Align curriculum content and assessment to the available teaching time;
- Maintain the alignment in the learning trajectory for learners, without compromising learners' transition between the grades; and
- Present a planning tool to inform instruction during the remaining school terms

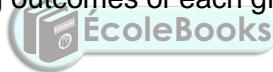

The curriculum trimming and reorganisation maintain and support the foundational principles of the National Curriculum Statement (NCS) Grades R – 12 as stated in the Curriculum and Assessment Policy Statement (CAPS) namely:

- Social transformation: ensuring that the educational imbalances of the past are redressed, and that equal educational opportunities are provided for all sections of the population;
- Active and critical learning: encouraging an active and critical approach to learning, rather than rote and uncritical learning of given truths;
- High knowledge and high skills: the minimum standards of knowledge and skills to be achieved at each grade are specified and high, achievable standards in all subjects have been set;
- Progression: content and context of each grade shows progression from simple to complex

- Human rights, inclusivity, environmental and social justice: infusing the principles and practices of social and environmental justice and human rights as defined in the Constitution of the Republic of South Africa.
- Valuing indigenous knowledge systems: acknowledging the rich history and heritage of this country as important contributors to nurturing the values contained in the Constitution; and
- Credibility, quality and efficiency: providing an education that is comparable in quality, breadth and depth to those of other countries.

In addition, the principles below guided the process of curriculum reorganisation and trimming:

- Maintain the spiral development of values, attitudes, concepts and skills, extension, consolidation and deeper understanding leading learners towards the final learning outcomes.
- Efficiency – less teaching time but more effective learning outcomes.
- Inclusivity – learning experience must cater for different types of learners who are differently abled by providing different types of learning experiences.
- Validity – the relevance of the content to the stated goals and outcomes of the curriculum.
- Utility –the content must lead to the acquisition of values, attitudes, skills and knowledge that are considered useful for transition to the next level and have relevance to the contexts in which learners live.
- Feasibility – analyse and examine the content in the light of the time and resources available to the schools, considering the current socio- economic and political climate.
- Coherence – Systematic curriculum mapping must have horizontal, vertical, subject area and interdisciplinary coherence; and
- Emphasise assessment for learning as a teaching strategy as opposed to assessment of learning to achieve the learning outcomes of each grade and subject.

2. Purpose

The purpose of the revised phase plan and revised annual national teaching plans is to:

- ensure that meaningful teaching proceeds during the revised school calendar.
- assist teachers with guided pacing and sequencing of curriculum content and assessment.
- enable teachers to cover the essential core content in each phase within the available time.
- address assessment overload to recoup time loss.
- assist teachers with planning for the different forms of assessment.
- ensure learners are adequately prepared for the subsequent year/s in terms of content, skills, knowledge, attitudes, and values

3. Implementation Dates

To meet the above-mentioned objectives, Section 3 of the CAPS, which deals with the overview of topics per term and annual teaching plans per subject have been trimmed and/or reorganised for the year 2020. The revised teaching and assessment plans are effective from the 1st June 2020.

4. Revised Teaching Plans per Subject

This document presents the revised national annual teaching plans for Grade 1.

Revised National Teaching Plan

Die opvoeder moet afmerk wat sy gedoen het - maak seker alle aspekte word gedoen gedurende die gegewe tyd. Gebruik die eerste week vir oriëntering en basislynassessering. Assessering word deurlopend gedoen - hou 'n kontrolelys byderhand om af te merk op 'n deurlopende basis. Maak gebruik van die SBA riglyne as 'n gids.
