#### 2021 RECOVERY ANNUAL TEACHING PLANS

### NATURAL SCIENCES

### **GRADE 5**

### **Presentation Outline**

- 1. Introduction
- 2. Principles
- 3. Underpinning assumptions
- 4. The Development of the 2021 Recovery ATPs
- 5. Purpose
- 6. Content Overview for the Phase
- 7. Summary: Content/Topics Amended
- 8. Amendments to the Annual Teaching Plan
- 9. Summary: Programme of Assessment
- 10. Contact details

### Introduction

### Introduction

COVID 19 led to losses in teaching and learning time due to:

- the lockdown period and phased reopening of schools,
- Alternating time tabling models and
- the related health and safety **protocols**.

Furthermore, the revision of the school calendar and intermittent closure of many schools negatively impacted the ability of teachers to implement the revised 2020 ATPs as envisioned.

To mediate the impact and support teachers in managing teaching, assessment and learning within the reduced **time**, the DBE in 2020 implemented:

- Circular S3 that outlined and guided teachers to conduct context specific subject trimming, in consultation with subject advisors.
- National Assessment Circular 02 and Circular E 11 to guide school-based assessment in phases and subjects

# **Principles**

## **Principles**

Use of the **2020 Curriculum Recovery**Framework as the base document

2

Learning losses inform the Three Year Recovery Plans for School –based Assessment

3

Management of the learning losses and the School Based Recovery Plans

4

Create opportunities through adjusted ATPs to strengthen pre-knowledge, consolidation, revision, and deeper learning

5

Entrench Assessment for Learning as a Pedagogical Approach to address the learning losses

# Download more resources like this on ECOLEBOOKS.COM PINCIPIES

The 2021 Recovery ATPs maintains the use of current LTSM and resources already available in the system.

Content topics removed in 2020 were not automatically returned in the 2021 Recovery ATPs.

Fundamental and core topics were retained in the Recovery ATPs

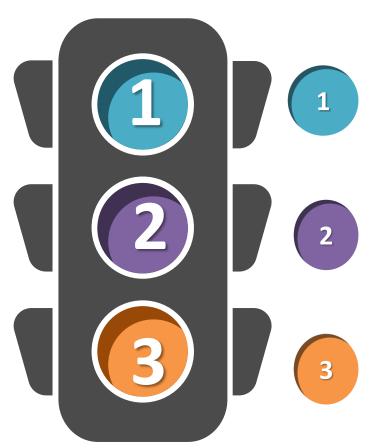

To guide and support effective teaching and learning

# **Underpinning Assumptions**

# Underpinning Assumptions

#### **ASSUMPTION 1**

All learners will return to school from day 1 of the 2021 academic year and norm-times as stipulated in the CAPS will be adhered to for the entire school year;

#### **ASSUMPTION 2**

Learning losses due to COVID-19 across grades and subjects will vary from school to school, class to class and even within classes.

#### **ASSUMPTION 3**

Each Teacher will have a record of learning losses and Departmental Heads and Subject Advisors will monitor progress in learning loss recovery;

### **Underpinning Assumptions**

#### **ASSUMPTION 4**

All schools will develop & implement school-based support programmes for all grades/years with particular focus on all the exit grades/years (3, 6, 9 and 12) throughout the three-year period.

#### **ASSUMPTION 5**

All Circulars related to the 2020 ATPs including SBA to be withdrawn and revised to align to the 2021 ATPs.

#### **ASSUMPTION 6**

Schools have systems in place to manage the possibility of a second wave of the pandemic in Q1 and Q3 of the 2021

# The Development of the 2021 Recovery ATPs

### The Development of the 2021 Recovery ATPs

### The Recovery ATPs are aligned to the:

- 2021 School calendar
- Abridged Section 4 of CAPS
- Curriculum and assessment principles as prescribed in the CAPS policy for Natural Sciences and Technology

# **Purpose**

### **Purpose**

- To show the outline of the content for this grade for 2021;
- To mediate the Recovery Annual Teaching Plan (ATP) and the School Based Assessment for Natural Sciences and Technology, Grade 5 for implementation in January 2021 as stipulated in Circular S11 of 2020.
- To ensure meaningful teaching and learning for 2021 against the backdrop of the 2020 circumstances occasioned by the Coronavirus;
- To enable teachers to bridge missed content skills, knowledge, values, and attitudes - from previous grades and covering content for the current grade;

### **Content Overview for the Phase**

## CONTENT OVERVIEW FOR THE PHASE

NATURAL SCIENCES AND TECHNOLOGY					
Term	Grade 4	Grade 5	Grade 6		
1	<ul> <li>Living and non-living things</li> <li>Structure of plants and animals</li> <li>What plants need to grow</li> <li>Habitats of animals</li> <li>Structures for animal shelters</li> </ul>	<ul> <li>Plants and animals on Earth</li> <li>Animal skeletons</li> <li>Skeletons as structures</li> <li>Food chains</li> <li>Life Cycles</li> </ul>	<ul> <li>Life Cycles (Grade 5)</li> <li>Photosynthesis</li> <li>Nutrients in food</li> <li>Nutrition</li> <li>Food chains (Grade 5)</li> <li>Ecosystems and Food webs</li> </ul>		
2	<ul> <li>Materials around us</li> <li>Solid materials</li> <li>Strengthening Materials</li> <li>Strong Frame Structures</li> </ul>	<ul> <li>Materials around us (Grade 4)</li> <li>Metals and non- metals</li> <li>Uses of Metals</li> <li>Processing materials</li> <li>Processed materials</li> </ul>	<ul> <li>Solids, Liquids and gases</li> <li>Mixtures</li> <li>Solutions as special mixtures</li> <li>Dissolving</li> <li>Mixtures and water resources</li> <li>Processes to purify water</li> </ul>		

### CONTENT OVERVIEW FOR THE PHASE

#### **NATURAL SCIENCES AND TECHNOLOGY**

TO TO TO THE SECOND PLANTS TO							
Term	Grade 4	Grade 5	Grade 6				
3	<ul> <li>Energy and Energy Transfer</li> <li>Energy around us</li> <li>Movement and Energy in a system</li> <li>Energy and Sound</li> </ul>	<ul> <li>Energy and Energy transfer</li> <li>(Grade 4)</li> <li>Energy Around us (Grade 4)</li> <li>Stored energy in fuels</li> <li>Energy and electricity</li> <li>Energy and movement</li> </ul>	<ul> <li>Electric circuits</li> <li>Electric conductors and insulators</li> <li>Systems to solve problems</li> <li>Mains Electricity</li> </ul>				
4	<ul> <li>Planet Earth</li> <li>The Sun</li> <li>The Earth and the Sun</li> <li>The Moon</li> <li>Rocket Systems</li> </ul>	<ul> <li>The Sun (Grade 4)</li> <li>The Moon (Grade 4)</li> <li>Planet Earth</li> <li>Surface of the Earth</li> <li>Sedimentary rocks</li> <li>Fossils</li> </ul>	<ul> <li>The solar system</li> <li>Movements of the Earth and planets</li> <li>The movement of the Moon</li> <li>Systems for looking into space</li> <li>Systems to explore the Moon and Mars</li> </ul>				

# **Summary: Content/Topics Amended**

# SUMMARY: CONTENT/TOPICS AMENDED

#### **Amendment Content/Topics Terms** Plants and Animals on Farth Retained Animal Skeletons Retained Skeletons as structures Retained Food Chains Retained Life Cycles Retained Materials Around Us Recovered from grade Gr 4 Metals and non-metals Retained Uses of metals Retained Processing materials 2 Reduced Processed materials Reduced

### Summary: Content/Topics Amended

Content/Topics	Term	Amendment		
Energy and Energy Transfer	3	Recovered from Gr 4		
Energy Around us	3	Recovered from Gr 4		
Stored energy in fuels	3	Retained		
Energy and electricity	3	Retained		
Energy and movement	3	Retained		
Systems for moving things	3	Removed		
The Sun	4	Recovered from Gr 4		
The Moon	4	Recovered from Gr 4		
Planet Earth	4	Integrated (Grade 4 & 5)		
Surface of the Earth	4	Reduced in time		
Sedimentary rocks	4	Reduced in time		
Fossils	4	Reduced in time		

# Amendments to the Annual Teaching Plan

### **Amendments to the Annual Teaching Plan**

- The Recovery ATP for Natural Sciences has the same content as in CAPS, however, this content has been arranged as follows:
  - Some topics have been cut out completely;
  - Content in some topics has been reduced;
  - Some topics have been brought back;
  - Some topics from Grade 4 have been included with reduced time;
  - The topic Planet Earth has been integrated with similar topic in Grade 4;
- Planet Earth and Beyond content has been brought back;
- Textbooks can be used as they are, but noting the omitted content in the Recovery ATP for Natural Sciences and Technology;
- Each grade has to have textbooks for both the current and the previous grade.

# Summary: Programme of Assessment

### Summary: Programme of Assessment

- Both formal and informal assessment should continue as normal, and as stated in the Revised Section 4 of the Natural Sciences and Technology CAPS;
- The development of Science Process Skills is key to the teaching and learning of the subject;
- Recording of informal assessment is left to the discretion of the teacher;
- Learners should read and write regularly to develop language skills as well;

### **Summary: Programme of Assessment**

#### The 2021 formal assessment tasks for Grade 5 are as follows:

	Term 1		Term 2		Term 3		Term 4
Form of Assess <b>@Patie</b> 5	Practical Task/ Investigation (40%)	Test (60%)	Practical Task/ Investigation (40%)	Examination (60%)	Practical Task/ Investigation (40%)	Test (60%)	* Examination
Minimum Marks	20	35	20	50	20	35	50
SBA Weighting	12%	18%	12%		15%	18%	
Exam Weighting				12,5%			12,5%
Content and skills focus	Term 1	Term 1	Term 2	Term 1 (40%) Term 2 (60%)	Term 3	Term 3	Term 3 (60%) Term 4 (40%)
No. of Tasks	2		2		2		1
