## LITERACY II LESSON NOTES FOR P.1 TERM I

#### Theme: Our school

Def. A school is a place where we go to learn.

How I come to school Whole class discussion about how (they) Children come to school. (orally) I come to school by car I come to school on foot etc

### Activity

Draw your self coming to school

### Things on the way to school

Plants e.g. trees, grass, flowers, banana plants etc Buildings e.g houses, shops, schools, churches, banks etc Vehicles e.g. cars, buses, motor cycles etc Animals e.g. birds, cows, goats, cats, hens, dogs etc Roads

### Activity

Draw, name and colour three things on your way to school

#### Dangers on the way to school

Car knocks, dog bites, thieves, kidnappers, snake bites, drowning, electric shock and insect stings.

### Activity

Draw and colour the dangers on the way to school

### People in my class

Name and stream of class Names of the teachers in the class

Children in the class e.g. boys and girls Number of children the class

Boys	girls
1	1
2	2
3	3
4	4
5	5

### Things found in the classroom and their use

Chalkboard	tables	broom	bags
Charts	class rulers	pencils	books
Duster	shelves	wall clock	ruler
Tables	chalk	nature table	

## Activity

Draw and name four things in your classroom

## Uses of the things in the classroom

Fill in with the correct words. We use tables for writing from Chairs are for sitting on Teachers use chalk to write on the chalkboard John uses a pencil to write in his book. We put rubbish in the waste paper basket We use brooms to sweep our classrooms Mat, doormat, rags, duster etc

## People in our school

Naming the people found in our school.HeadmasternursespupilsGuardsadministratormatronsDriverssecretariesbursar

cleaners cooks librarians watchman

The name of our class teacher is \_\_\_\_\_\_ The name of our head teacher is \_\_\_\_\_\_

### Name and colour these people in our school

Nurse	Teacher	Guard	cooks

Work of people in our school

Teachers – teach children

Cooks – prepare and serve food

Pupils – learn in class

Nurse – care for the sick people.

Secretaries – type letters, homework and examinations

Librarian – lend school books to teachers and pupils/ takes care of school books

Cleaners – clean the school

Guards – protects school property

### Work places of people in school

Teachers	classroom
Cooks	kitchen
Librarian	library
Headteacher	office
Nurses	sickbay
Secretaries	office
Bursar	office

### Activity

Draw and name three people and their places of work

### School needs

School needs are things we use at school e.g classrooms, toilets, chairs, tables, compound, chalk, plants, pencils, charts, water, food, books ruler, broom, teachers, electricity, dustbins, waste paper basket, medical care (nurse), security.(guard).

## Activity

Draw and name three school needs

### Uses of school needs

- a) Classrooms to protect us against bad weather and to study from it.
- b) Pencils we need pencils for writing with
- c) Teachers we need teachers to teach children.
- d) Waste bins- we need waste bins for putting in rubbish
- e) Chairs We need chairs for sitting on
- f) Food We need food to feed on

## Activity

Draw yourself using a pencil

### Symbols of the school

School symbols are things which make a school different from others.

These are

School uniform, school motto, school flag, school badge, school sign post, school name,

## Activity

Name and colour these school symbols

School uniform	School badge	School flag

### Uses of school symbols

Symbols tell people about our school. Uniforms make us look smart and different The school motto encourages us to work hard Sign post helps people to find our school easily.

## School rules

Do not fight Do not shout in class Do not got out without permission Do not steal Keep the school property safe Keep the compound clean Do not come to school late

### **Different school activities**

Writing Reading Sweeping Weeding Dancing Playing Singing Watching games Digging Listening to radio Watering plants

## Activity

Draw these activities done at school. a) dancing b) reading

c) sweeping

## Keeping the school clean

How do we keep our school clean? By sweeping the compound and classroom By slashing the compound By weeding flower gardens By mopping the classroom By dusting the tables and chairs By picking rubbish and putting in the waste bins By picking rubbish and putting in the waste bins By burning rubbish By cleaning the chalkboard. Arranging the things in our classroom Proper use of the toilets Flashing toilets Removing cob webs

## Things we use to keep our school clean

Brooms	slashers	hoe	axe	water	rag
waste bins	rake	soap		basins	

## Activity

Drawing and naming any three things we use to keep our school clean.

### THEME OUR HOME

Def; A home is a place where people or animals live./ A home is a place where we live.

#### Things which make up a home

Buildings, people, plants, animals, compound, garden, toilet/ latrine, dishrack, bathroom, kitchen, stored/granary, rubbish/dustbin

#### Uses of things found in a home

Kitchen, toilet, rubbish pit, dish rack Things which a clean home must have.

Latrine or toilet, dustbin or rubbish pit, kitchen, bathroom, dish rack

#### Family

Def. A family is a group of people related by blood or marriage.

#### **Types of families**

Nuclear family

extended family

#### Nuclear family

It is a family with father, mother and their own children.

Draw and name members in a nuclear family

#### **Extended family**

It's a family with father, mother, children and other relatives.

#### Members of an extended family

Mother, father, children, relatives examples of relatives, uncle, aunt, niece, nephew, grandfather, grandmother, cousin.

#### Needs of a family

Land, houses, education, food, clothes, love and care, shelter, medical, security, land.

#### **Basic needs**

Food, shelter, clothes, water,

#### Draw and name four needs of a family

#### Uses of family needs

Food – to feed on. Houses – for shelter Clothes – for wearing/ covering the body parts. Land- for growing crops, grazing animals, building houses.

#### Ways of getting family needs

We grow crops in the garden We buy food from the market, supermarket and shops.

#### Houses

We build houses We buy or rent houses

### Clothes

We buy clothes

### Education

We get education from school

#### Roles of family members

Parents Pay school fees Buy clothes for the family Pay bills eg water bills, electricity bills. Care for the family members i.e. medical care, security and cook food for us Provide shelter for the family

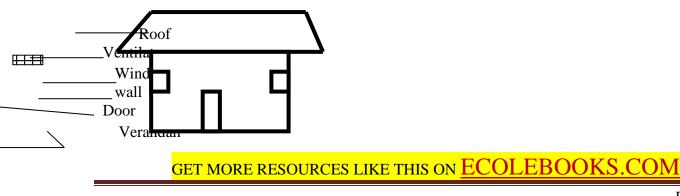

### Roles of children

Children help to wash utensils, clothes Children clean the houses Children help in the garden Children clean the compound Children fetch water. Children cook food

### Children help in caring for young ones

### A house

Def. A house is a building where people live. Name parts of the house.

#### Rooms in the house

Sitting room Kitchen Bed room Bathroom Dining room Toilets Store Reading rooms

#### Things found in the sitting room

Chairs, radio, tables, television, cupboard, carpet, doormats, table, table mats

#### Things found in a dining room

Tables, chairs, cupboard

#### Things found in kitchen

Plates, cups, saucepan, dishes, spoons forks, knives, baskets, jerry cans, trays, jugs, leddle, flasks, mugs, kettles, glasses

#### Things found in the bed room

Bed sheets, mattresses, bed, blankets, pillow, mosquito nets

#### Things found in the bathroom

Basin brush bucket sponge water towel soap vim etc.

#### Activity

Draw and name any four things found in a kitchen

### Types of houses

There are two types of houses. These are temporary houses and permanent houses

#### Temporary houses

These are houses built using weak building materials <u>Examples of weak building materials</u> Grass, mud, reeds, sticks, banana fibres Examples of temporary houses are unipot, hut, tent, kiosk, mud house

#### Permanent houses

Examples of permanent houses are flats, bungalow These are houses built using strong building materials <u>Examples of strong building materials</u> Cement, iron bars, iron sheets, timber, tiles, sand, bricks, blocks

### Activity

Draw and name any three weak building materials. Draw and name any two permanent houses

### Uses of a house

- 1. We sleep in a house
- 2. A house protects us from the rain
- 3. A house protects us from strong wind
- 4. A house protects us from too much sunshine
- 5. A house gives us warmth
- 6. A house protects us from dangerous animals.
- 7. A house protects our property.

### **Building materials**

**Def**: These are things we use to build houses.

Examples of building materials

Grass, wood, mud, stones, sticks, reeds, blocks, poles, tiles, banana fibres, timber , bricks, strings, cement, cow dung, nails.

#### Weak building materials

These are used to build temporary houses Examples are: cow dung, mud, banana fibres, reeds, grass, sticks, poles

#### Strong building materials

These are used to build permanent houses Examples are: sand, bricks, or blocks, iron sheets, iron bars, nails, timber, cement, stones, tiles etc.

#### Sources of building materials

Stones		quarry
Sand		lake side/swamp
Grass		bush
Timber		forest
Reeds		bush
Bricks		swamp
Iron sheets	-	factory
Cement	-	cement factory
Nails	-	from the factory
Iron bars	_	factory
		Ideloly

## Activity

- 1. Draw and name any four building materials
- 2. Write the materials got from these sources

Bush	•••••
swamp	

factory	•
forest	

## Activity

- 3. Draw and name any permanent house
- 4. Draw and name any two temporary houses.

## <u>ANIMALS</u>

Types of animals

- a) Domestic animals
- b) Wild animals

## **Domestic animals**

Def: Domestic animals are the animals we keep at home.

Examples of domestic animals

Cats, cow, rabbits, horses, pigs, goats, hens, donkey, ducks, turkeys etc

### Wild animals

These are animals that stay in the bush, rivers, lakes, oceans and forests.

## **Examples of wild animals**

Leopard	tiger	lion	zebra	elephant	frogs
snakes	da	onkey	etc		

### Places where wild animals live

Forests, bush, grass, game parks, zoo, jungles, water

### Uses of domestic animals

We use donkeys to carry things A dog guards our homes A cat chases rats away from our homes. We get beef and milk, horns, cow dung and skins from cows We get pork from pigs We get mutton and wool from sheep. We sell some domestic animals to get money We get eggs from hens, ducks and turkeys.

#### Draw these things got from domestic animals

Eggs	Milk	Meat

#### Meat got from different animals.

Pork is got from pigs Mutton is got from sheep Fillet is got from fish Chicken is got from a hen Beef is got from cows

### **Animals homes**

A dog stays in kennel A pig stays in a sty A lion stays in a den A man stays in a house **A fish stays in water** Ants and termites stay in an ant hill A bird stays in a nest A cow stays in a kraal/ byre A rabid stays in a kraal/ byre A rabid stays in a hutch A sheep stays in a fold. A horse stays in a stable A bee stays in a hive A spider stays in a spider web A goat stays in a shed

## Animal young ones

Dog	рирру
Pig	piglet
Duck	duckling
Cow	calf
Cat	kitten
Lion	cub
Elephant	calf
Sheep	lamb
Bird	nestling
Fish	fry
Rabbit	bunny
People	baby
Butterfly	caterpillars
Hen	chick
Frog	tadpole
Horse	foal

## Animal sounds

A dog	barks
A duck	quacks
A sheep/goat	bleats
A snake	hisses
A cat	mews
A bird	whistles/sings
A bull	bellows
An elephant	trumpets
A lion	roars
A frog	crocks
A donkey	brays
People	cry / talk
A hen	clucks
A horse	neighs
A baby	cries

#### Animal movement

People	walk
Cows	walk
Hens	walk
Elephants	walk
Birds	fly
Fish	swim
A frog	hops / jumps
A baby	crawls
A snake/snail	glides / slithers
A caterpillar	wriggles
A dog	runs / walks
A crocodile/ baby/	crawls
lizard	

### COMMUNITY

### Def; Community

Different people in our community A community is a group of people living and working together.

### Examples of people in our community

Teachers, doctors, nurse, builder, farmer, tailor, cooks, carpenter, vendors, driver, cobbler, pilots, police, secretary, police, cyclists, guards, banker

### Activity

Draw, name and colour these people in our community

### Activities done by people in the community

Teaching, treating, building, growing crops, and keeping animals, making furniture, buying and selling things. Driving cars, lorries, buses,

taxis, making shoes, cutting hair, sawing clothes, tying, keeping law and order

#### People in our community and their places of work

Teachers	school
Doctors	hospital , clinics
Builder	workshop, work site
Traders	shop
Police	police station
Vendors	market
Carpenter	workshop
Farmer	garden
Pilot	airport

#### Needs of people in our community

Food	shelter	water	shelter	roads
Security	medical care	land		

#### Important places in our community

Schools, hospitals, market, shops, religious places, roads, hills

Draw and name these things found in our community

Church	Mosque	Roads	Hospitals

### THEME IV: THE HUMAN BODY AND HEALTH

Sub theme:	Parts of th	ne body				
Head	neck	hands		finger	ears	
chest	nave	el	toes	eyes	s arms	skin
mou	ith	stomach		knee		

#### Senses and sense organs

We use eyes to see We use ears to hear We use nose to smell We use the skin to feel We use the tongue to taste

#### Activity

Match the sense organs with their senses		
Nose	hearing	
Tongue	smelling	
Skin	seeing	
Ears	tasting	
Eyes	feeling	

#### Personal hygiene

Personal hygiene is the keeping of the body clean.

#### Things we use to carry out personal hygiene

Spongesandalsrazorbladewatertoothbrushtoothpastetooth pickscissorsEars budsnail cuttercombtowelbasin

#### Importance and ways of keeping the body clean

Why do we keep the body clean?

- To avoid or prevent diseases
- To avoid bad body smell
- To avoid bad breathe
- To be clean or smart
- To remove dirt

#### Activity

1. Why do we brush our teeth?

- 2. How do we keep our hair clean?
- 3. Why do we iron clothes?

### Ways of keeping our bodies clean

- we wash our face
- we comb our hair
- we cut our finger nails short
- we bathe our body
- we cut our toe nails short

### Common diseases at school and at home

malaria	chicken pox	cough
dysentery	flu	diarhoea
mumps		

### Causes of common diseases and spread

Germs causes diseases

- eating bad/ dirty food
- failure to use toilets well

### Prevention of common diseases

- keeping our homes clean and free from disease vectors
- covering our food.
- Proper waste rubbish dispersal
- Washing our fingers/ hands before eating
- Ironing clothes
- Using toilets/latrines

### Childhood disease (immunisable diseases)

What is immunization?

Immunization is the giving of vaccine to a person to protect or prevent certain disease

Examples of immunisable diseases

Measles Tetanus Polio Hepatitis B tuberculosis diphtheria whooping cough influenza

#### Other immunisable diseases are

- Typhoid
- pnemonia

#### Signs and symptoms of immunisable diseases

Tetanus	Measles
<ul> <li>stiff muscles all over the body</li> </ul>	- red eyes
influenza	measles
- runny nose	- sore mouth
	- runny nose

Whooping cough

- runny nose
- cough

Tuberculosis

- coughing for a long time
- loss of weight
- hard to breath

#### Polio

- lame legs or hands become thin
- weak and thin legs or hands.

Diphtheria

- swollen neck
- sore throat
- Finds it hard to breath

#### Other immunisable disease

Typhoid Pneumonia Hepatitis B

#### Importance of immunization

- it reduces on infant deaths
- it promotes good health
- it controls childhood diseases

### LESSON NOTES FOR LITERACY II P.1 TERM II

#### THEME: WEATHER

Weather is the change in the atmosphere of a given place at a particular time.

#### Elements of weather (weather makers)

Sunshine

Rainfall

Cloud cover

Wind

### Uses of elements of weather

Sunshine

The sun is the main natural source of heat, light and energy

### Uses of the sun

- the sun gives light
- the sun helps our clothes to dry
- the sun gives us heat
- the sun gives us vitamin D
- the sun helps our seeds to dry
- the sun helps our seeds to grow

### Dangers of too much sunshine

- Too much sun shine dries our plants
- Too much sunshine dries water sources
- Too much sunshine causes too much heat
- Too much sunshine kills animals
- Too much sunshine causes drought

## Rainfall

Rain is the main natural source of water

## Uses of rain

- rain give us water
- it makes the soil soft for digging
- it helps plants to grow well
- if fills wells, streams, lakes, swamps, and rivers

### Uses of rain water

- we use water for cooking
- we use water for bathing
- we use water for watering plants
- we use water for washing clothes
- we use water for mopping
- we use water for drinking

- we use water for washing utensils.

### Places where rain water collects

Ponds, rivers, lakes, soil, rivers, wells, sea, pools etc.

## Dangers of rain

- too much rain causes floods
- too much rain kills animals
- too much rain spoils roads
- too much rain destroys plants
- too much rain kills people
- too much rain destroy houses

## Wind

Wind is the moving air.

Uses of wind

- wind dries our clothes
- wind helps kites to fly and aeroplanes
- wind helps boats to sail
- winds helps in winnowing seeds

## Dangers of wind

- strong wind causes storm
- strong wind destroys our houses
- strong wind destroys crops
- strong wind carries away top soil
- wind spread diseases for example flu, measles.

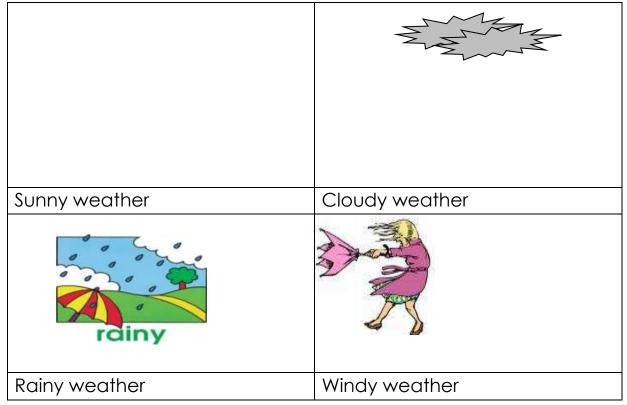

## Clouds

## Uses of clouds

- we get rain from clouds
- clouds cool the earth when they cover the sun
- clouds create shade

Nimbus clouds give us rain

## Types of weather There are four types of weather

### Managing different weather changes Things we use on a rainy day

Umbrella gumboots Rain coat banana leaves				
Things we use on a sunny day				
Umbrella	sandals	hat		
Things we use on a cloudy day				

Sweater

jacket

## Activities done in different types of weather

## Sunny weather

- harvesting crops
- watering crops
- preparing plants
- preparing the garden
- drying seeds

## Windy weather

- winnowing

### **Rainy weather**

- planting seeds
- weeding (moving unwanted plants from the garden)
- pruning (removing excess branches from the garden )
- thinning (removing excess plants from the garden
- water harvesting

### Garden tools

These are tools things used in the garden.

Basket		hoe	rake
Watering	g can	trowel	Slasher
	GET MORE RESOURC	es like this on ECOL	FBOOKS COM

axe

panga

wheelbarrow

#### Uses of garden tools

- watering can for watering plants
- an axe for chopping
- a rake collecting rubbish
- a hoe digging
- a basket carrying food
- a slasher for slashing
- a panga for cutting small trees
- a wheelbarrow for carrying manure and rubbish.
- A trowel for transplanting.

#### Seasons

These are periods when farmers carry out different activities

### Types of seasons

Dry /sunny seasons Wet/ rainy season

### Dry season

Harvesting
Drying seeds
Watering
Preparing gardens

### Wet season

Weeding

Pruning Thinning

## THEME: ACCIDENTS AND SAFETY AT HOME

An accident is a sudden danger that hurts our bodies

### Common accidents

Burns fire Stings Falls scalds Cuts Drowning Poisoning bites Electricity shock Bites – dogs, snake , dog pierces

## Things that cause accidents at home

-	razor blades	pin	thorn
-	broken bottles	hoe	coin
-	snakes	safety pin	spear
-	cars	iron sheets	spear

- knife sharp stones
- electricity
- medicine

### causes of accidents at home

- climbing trees
- playing with electric wires
- playing with fire
- playing with sharp objects
- playing with dangerous animals

#### common accidents on the way to school

- bites
- knocks
- stings
- cuts
- kidnappers
- falls
- drowning

### Causes of accidents on the way to school

- over speeding cars
- playing on the road
- playing with dangerous objects
- playing in the bush
- over loading
- bad driving
- mad people
- playing with dangerous animals

### Safety on the road

- road signs : These are things which guide us on the road.

### Examples of road signs

- zebra crossing
- traffic lights
- humps a head
- round about
- school a head/ children crossing
- bridge
- parking
- no parking
- danger a head
- no entry
- the teacher will draw the road signs

### How to prevent accidents on the road

- avoid playing on the road
- don't stand near or behind a parked car.
- Use a zebra crossing on a busy road.
- Look at the traffic lights
- Wait for the traffic officer to help you

### People who walk along the road are called pedestrians.

How to cross a busy road

When crossing the road look right, look left, right again if the road is clear then you cross.

## Accidents at school

- falling
- cuts and injuries
- burns
- electric shock
- fracture
- drowning
- falling in latrines/septic tank
- nose bleeding
- climbing trees and walls
- playing with sharp objects
- playing with electricity
- playing in un safe places

### Ways of preventing accidents at school

- don't run carelessly
- avoid bad plays
- don't push your friends

- avoid climbing trees and walls
- playing in safe places
- don't run with hot food
- don't touch or step on open electric wires
- don't play with sharp objects

### **Effects of accidents**

- lameness
- blindness
- sickness
- death

## Theme III: Living together at home, school and community

Family

Def; A family is a group of people related by blood, marriage or adoption.

## Types of families

Nuclear family Extended family

## **Examples of relatives**

- uncle
- aunt
- grandmother
- grandfather
- cousins

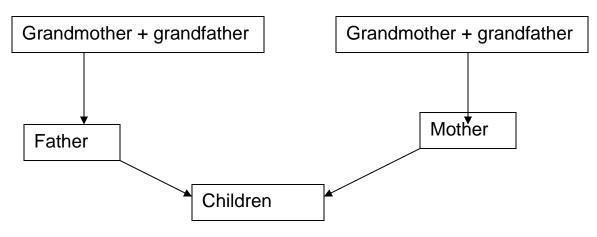

- nephew
- niece

## FAMILY RELATIONSHIP

#### Family tree

G.M + G.F

#### G.M + G.F

## Ways of living together in a home

- by helping each other
- by playing together
- by sharing
- by eating together
- by working together

## Ways of living together in a school

- by praying together
- by sharing
- by working together
- by helping one another
- by obeying rules
- by listening to the trees

## Living together in the community

## Ways of living together in a community

- by cleaning roads

- by cleaning wells
- by helping each other
- by obeying rules
- by sharing

#### Ceremonies we do together in the community

- Weddings
- Introduction ceremonies
- Confirmation
- Burial ceremonies
- Funeral rites
- Birthday
- Baptism
- Initiation
- Circumcision
- Twins- Kato, Wasswa, Babirye, Nakato

### Theme IV: Food and nutrition

Food is something good we eat or drink

### Examples of food

Rice Millet sweet potatoes mangoes fish pineapple pumpkin sugarcane irish potatoes cow peas beans oranges cabbage

the teacher will enable the pupils see, touch and feel the different types of food.

### Sources of food

lakes / rivers	super markets
garden	farms
market	swamps
plants	shops
Theis	the main source of food.

#### Food got from animals

Milk	eggs	pork	beef	chicken	mutton
------	------	------	------	---------	--------

#### Food got from plants

Beans	potatoes		pineapples
Cassava	cow peas	rice	
Pumpkins	sugarcane	mangoes	oranges

### Uses of food

- for strength
- for growth
- for health
- for energy

### Ways of keeping of food safe

- By covering food
- By washing
- By salting
- By smoking
- By cooking
- By sun drying
- By refrigerating
- By tinning

## Why do we keep food safe?

- To prevent rotting
- To avoid diseases
- To avoid germs
- To keep it for future use.

# P.1 TERM III

## NEWS LESSON NOTES THEME: TRANSPORT AND COMMUNICATION

Transport is the movement of goods and people from one place to another.

## Types of transport

- road transport
- railway transport
- water transport
- air transport

Defn: Things which move us from one place to another.

## means of transport means of road transport

- cars
- bicycles
- lorries
- motorcycles
- donkeys
- camels
- carts
- horses

### means of water transport

- ship submarine
- boat yatch
- ferry
- canoes

#### means of air transport

- aeroplane

jet

- rocket helicopter
- paracute
- airbaloon

#### Means of railway transport

- train
- tram

#### Uses of transport

- to carry people
- to carry food
- to carry animals
- to carry building materials
- to carry water

Places where we find different means of transport

Aero plane – airport Taxi - Taxi Park Motorcycles – stage Ship - port / harbour Bus – Bus Park Train - railway station

## People who move different means of transport

Pilots – aeroplane, helicopter Captain – ship, Driver – car, lorries, buses Cyclist – bicycles, motor cycles Riders – camels, donkeys, horses,

The commonest type of transport is road transport

The quickest type of transport is air transport An aeroplane is the quickest mean of transport

#### **Examples of road users**

Pedestrians, passangers, drivers, cyclists, riders

Pedestrians: Are the people who walk on foot along the side of the road.

Cyclists: Are the people who ride bicycles and motor cycles

Passengers: Are people who travel by bus, taxi, car, train or aeroplane.

#### THEME: THINGS WE MAKE

Things we make at home and at school using local materials are called crafts

#### Examples of things we make /crafts

- Mats	racks
- Baskets	kites
Balls	tables
Drums	chairs
Stools	puppets
Hats	table cloth
Winnowers	door mat.
Dolls	
Toys	
Pots	
Ropes	

Bags etc

#### Materials we use and their sources

Materials	sources
Reeds	forest, bush, garden
Banana fibres	garden
Sisal	sisal plant
Payrus	swamp
Clay	swamp
Raffia	palm trees
Palm leaves	palm trees
Banana stalk	banana plant
Sticks	forest / bush
Wood	forest / bush

## Importance of things we make. Why we make crafts?

- for domestic use i.e. sitting on, cooking, carrying things, keeping water etc
- for playing with
- for selling and getting money
- for decoration
- for wearing
- for teaching and leaning

# Ways of making crafts:

By modeling Tie and dye Knitting Weaving

# Materials we use and crafts made.

- clay pots, flowers pots, vase
- banana fibres ropes, mats, balls

- sisal – ropes

-

- palm leaves mats, hats, bags
- sisal ropes, door mats
- papyrus winnowers
- sticks stools
- timber / wood tables, chairs, desks, bench
- banana stalks baskets

# THEME: OUR ENVIRONMENT

sub Theme: Components of the environment what is environment environment are things around us.

# Components of the environment / things which make up the environment

- people
- plants
- rivers
- stones
- lakes
- soil
- animals
- roads
- land
- air
- insects
- birds

# Groups

Living Non living

#### non living things in the environment

non living things are things which do not have life

examples of non living things tables chairs beds blackboards stones pencil pens boxes books Cars Desks Water Hats Baskets etc

# Things which non living things do not do

They do not move They do not grow They do not feed They do not breath They do not reproduce

#### Living things

Living things are things which have life

#### **Examples of living things**

People Plants Insects

Animals Birds

#### Main groups of living things

Plants Animals

#### **Examples of plants**

Banana plants Maize plans Cassava plants Mango plants Bean plants

#### **Examples of animals**

Cows Goats Sheep Pigs Cats etc

#### Flowering plants

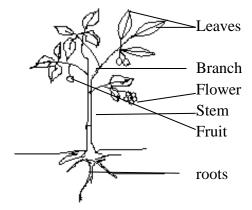

Flowering plants are plants which bear flowers

#### **Examples of flowering plants**

Banana plants Orange plants Bean plants Apple plant Sweet potato plants Sun flower plant Maize plants Coffee plants

Cotton plants Pumpkin plants Soya bean plants Tomato plants

## Parts of a flowering plant

#### Parts of flowering plants

- flower
- fruits
- branches
- stem
- roots

**NB:** There are three main parts of a plant namely;

- leaves
- stem
- roots

#### uses of plants

- plants provide medicine
- plants provide food
- plants provide firewood
- plants provide timber
- plants provide building materials
- plants provide flowers

- plants provide shade.

#### How to care for plants

- by weeding removal of unwanted plants from the garden
- by watering
- pruning removal of excess branches from a plant.
- by mulching covering of the garden with dry materials
- by thinning removal of excess plants.

## A young plant is called a seedling.

SUB THEME: WATER Sources of water The main source of water is rainfall Other sources of water

- lakes
- springs
- rivers
- swamps
- streams
- oceans
- seas
- wells
- boreholes

#### uses of water

- for washing
- for drinking
- for bathing
- for mopping
- for watering plants
- for cooking

#### uses of things in our environment

- plants gives us food, buildings materials, medicine etc
- animals provide transport, food , protection etc
- houses and trees provide shelter

#### activities that spoil our environment

- cutting down trees
- building in swamps
- brick making
- poor methods of farming
- hunting
- releasing bad smoke to the environment
- burning bushes
- poor rubbish disposal
- overgrazing of animals
- over harvesting of sand
- leaving uncovered holes

#### How we protect the environment

- mulching
- by watering plants
- by planting trees
- proper rubbish disposal
- water harvesting
- proper use of available resources
- covering holes.

#### THEME: PEACE AND SECURITY

Peace is living in harmony without fighting and quarrelling with one another.

Security is living with protection and freedom

#### Factors that promote peace and security at home

- love
- obedience
- caring / helping
- good health
- good relationships
- respect
- good feeding
- protection
- reporting wrong doers
- protection i.e.
  - o keeping dogs at home
  - o locking doors and windows
  - o sharing
  - working together.

#### People who promote peace and security at home

- parents
- guards
- elders
- relatives
- children
- maids

#### Factors that promote peace and security at school

- follow the school rules
- loving one another
- obedience
- helping others
- sharing with others
- protection
- listening to teachers and friends

- observing children's rights and responsibilities

#### People who promote peace and security at school

- teachers
- prefects
- nurses
- guards
- cooks
- matrons
- children

## People who keep peace and security in our community

- elders
- guards
- parents
- teachers
- army
- police
- LC local council
- LDU Local Defense Unit
