

MADINAH ISLAMIC JUNIOR SCH, NSANCGI
RECESS WORK TERM I 2020
PRIMARY FIVE MATHEMATICS

Name: _____

1. Workout: $3+4+6$

6. Round off 267 to the nearest tens

2. Write the short form of (2×100)
 $+ (2 \times 10) + (3 \times 1)$

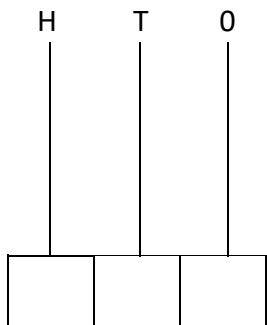

7. If represent 12 balls. How

many balls will are led by

3. Show 205 On the abacus

8. Name this symbol as used in sets

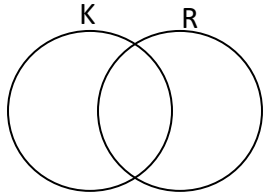

9. Given that set $M = \{k, l, m, n\}$,
 $N = \{a, b, c, d\}$. Set m

_____ is set n

10. Write the place value of 9 in
the number 1963

4. Shade KuR

5. 5kg of meat cost 30000/=. How
much will 1kg cost

11. A cow has 4 legs. How many legs
has 646 cows

12. Subtract 76 from 303

17. Add: $\frac{2}{6} + \frac{3}{6}$

13. Find the next number in the sequence 7, 14, 21

18. Write 6304 in words

14. Express 49 in roman numerals

19. A boy sat in class 6:30am and left the class at 7:30 am, how long did the boy stay in class

15. Find the lcm of 18 and 24

20. Tom bought a big goat at sh70,000 and sold it to Mr. Kaboja at sh 75000/=. Find toms profit

16. Write down all odd numbers less than 10

SECTION B

21. Given that set : $p=\{1,2,3,4,5,6,7,8\}$, $q=\{2,9,6,3,12\}$

a. Write down the element of;

i. Pnq

iii. P only

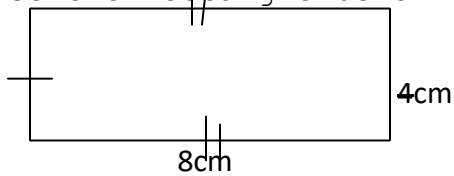

ii. Puq

b. Represent the information on a Venn diagram

22.Add:	hrs	min	kg	gm
	3	35	4	500
	+4	40	+1	200
	<hr/>		<hr/>	
	<hr/>		<hr/>	

c) Workout $x+2=9$

23. Use the rectangle below to answer the questions that follow

a. Find the area of a rectangle above

b. Calculate the perimeter of a rectangle above

c. How many lines of symmetry has a rectangle

24. Given the numbers below, 26, 9, 7.

a. Write the largest number that can be formed using numbers

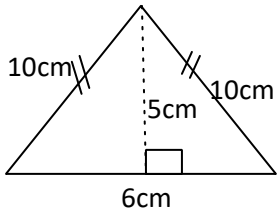

b. Write the smallest number.

25. Use the table below to answer the questions below

No of pupils	1	_____	7	10
legs	2	8	14	_____

Fill in the blank spaces

26. Find the area of a triangle below

b) Find the perimeter of a triangle above

27. Tom is 3yrs older than Ben. If Ben is 10 yrs

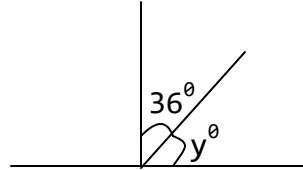

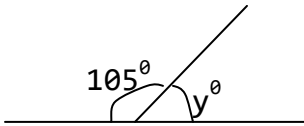

a. How old is Tom

c. Find the difference between

their age

b. Find their total age

28. Find the missing angles

b) Use your protractor to measure and draw an angle 90°

29. The table below shows the transport charges by a train between different towns

TOWNS	CHARGES
Kampala - Tororo	3500
Kasese - Tororo	5300
Kamapla - Lugazi	1500
Mukula - Kampala	3000

a. How much money will two pay to travel from Mukula to Kampala?

b. How much will one pay from Kasese to Tororo

d. Workout the amount of money john and his sister will pay from Kasese to Tororo

30. Divide correctly

a. $\sqrt[3]{303}$

b. $12 \overline{) \sqrt{303}}$

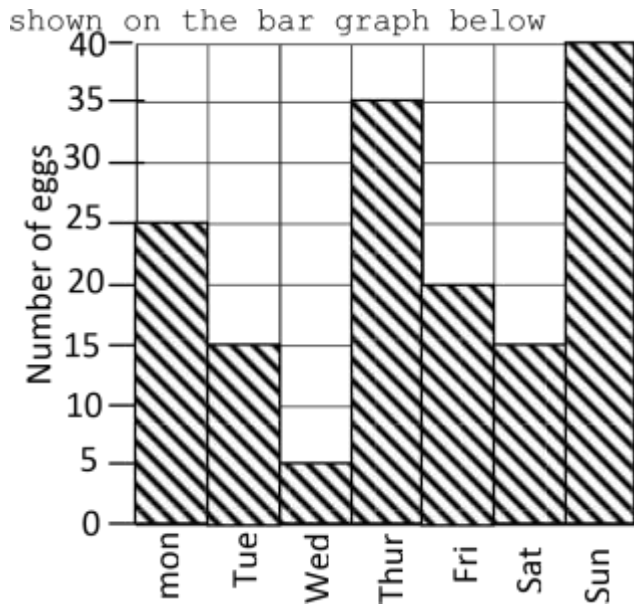

31. Given that $p=6$ any $y=5$. Work out:

a. $Pxy-p$

c.
$$\frac{p+2y}{4}$$

b. $p+y$

32. Alex collected eggs from his birds throughout the week and recorded as

Days of the week

Questions

a. How many eggs were collected on Monday?

b. Workout the number of eggs collected Sunday and Friday?

c. On which two days were the same eggs collected
